N.A. Step 6 in Writing

We became entirely ready to have God remove All these defects of CHARACTER

Sometimes the truth about ourselves is painful and we may become overwhelmed and remorseful. Step 6 is best to be worked and applied as soon as we complete step 5. Step 7 is the same, if we put off any of the steps we suffer needlessly and set ourselves up to relapse. We need to continue moving foward if we expect to continue to get the results we want. The steps bring relief if we work them continuously and to the best of our ability, not relapse, misery & death. If we trust our Higher Power will we will seek the relief recovery brings. In N.A. we do not have to do this alone, the group, your sponsor, and your higher power are all there to share their love and support.

These words and phrases are here for you to get in touch with your potential Defects and to provoke your thoughts and to give insights into deeper AREAS of our personalities that we tend to overlook if we have to think them up all by ourselves.

Pray for the willingness to be complete and thourogh.
Review your written steps 1-4 And note on paper AREAS that you think might be defects,
Listen to your 5th step Audio-tape and note AREAS (on paper) that were disscussed as problem AREAS or defects
