Day 1- Friday

Opening remarks by Erik F followed by the Serenity Prayer

Anonymi Agent- Bill A

Chair- Erik F

Co Chair- Shawn C

Secretary- Matte B

Co Secretary- Daniel H

Literature Coordinator- Bill A

Literature Co Coordinator- Brian Yelloweyes

Literature Secretary- Megan B

Literature Co Secretary- Kate G

Web Servant- Hermen T

Overview

Day 1 meeting began with introductions and Group Reports. Erik, the conference chair, emphasized the need for kitchen help. Niek reported on Dutch Groups, highlighting committed members and outreach efforts. Matt shared updates from two other Dutch Group's. Teresa reported on the Grateful Wake Up Group, noting low attendance and issues with the Nebraska regional. Eric also gave the report for the Hope Group in Nebraska about their struggles with the Nebraska region. Bill discussed Historical Perspective and Recovery First Group's struggles with attendance and proposed literature approvals. The meeting concluded. Historical Perspectives Group was the only Group bringing proposals this year. They were turned into the conference chair at the beginning of the conference.

Group Reports

Tyrone- The War Is Over! Group

TWIO! FSC GROUP REPORT 2025

This has been a year of challenges and growing pains for The War Is Over Group of Narcotics Anonymous. We currently have six active members, which is thriving. We continue to maintain our in-person meetings on Tuesday and Thursday. We average _ addicts at our physical meetings, with _ having a higher average. We average _ addicts on our Wednesday night online meeting. We had addicts who have visited in and from out of town that have found our website. Examples of this are addicts who have recently relocated to Findlay. We still maintain our Group Conscious Meeting on the last Monday of every month. We do Group inventory through the traditions. We decided to separate the Business meeting from Group Conscious and moved it to the first Tuesday of the month after our regular meeting. Our Home Group celebrated six years of being a Group on October 8th, 2024. We celebrated Group members clean times of six, five, four, two with three, and one with two years clean. We also lost one member to relapse after the FSC but has had contact recently. We have had two guest speaker meetings, One with an addict from Nebraska and another from the Netherlands.

Our Group is financially healthy, thanks to our Seventh Tradition, and we maintain a fund for purchasing books. We are currently low on books and are in the process of placing an order. We have several addicts and other Groups who regularly reach out to purchase books, at cost.

After the FSC our Group made the commitment to attend the weekly Ada and Kenton meetings, after those Group's members left NA. The meetings are being opened by one of our Group Members. Our Group is discussing how to move forward with those meetings through Group Conscious. Our Group members are doing PI for our meetings, Ada, and Kenton. We redesigned our posters, made business cards, and new flyers for the Kenton meeting.

We continue to maintain our H&I commitment at Findlay Recovery Center on the last Friday of every month. Our Group has not gained any new members because of this commitment. Addicts come from all over the country. Some addicts take Grey Books and Baby Blues when they leave the facility. One addict from the treatment center reached out to a member for sponsorship as a result, but we have lost contact with them.

Since we have had low attendance on our Thursday in person meeting our Group has conscientized to have an optional open participation input and review meeting, where we have been going down the list on nahelp.org. We have submitted input for 'Gratitude is an Action Word'. We started input for the 'Commitment' IP. We decided to submit the pieces in Input and Review format, double spaced, and line numbered, so other Groups and addicts can contribute on the nahelp.org website.

Alan- A Different Look Group

A Different Look Group report 2025

A Different Look Group of Narcotics Anonymous is a closed literature study meeting for addicts only and meets on Saturdays from 8:00 PM till 10:00 PM. We meet in person at 603 Longshore Avenue in Philadelphia and also on Zoom. Join Zoom Meeting at <https://us02web.zoom.us/j/87602409459>

Niek- Hengelo en Zwolle

Group Report

(FSC 2025)

Our HomeGroup currently consists of 8 committed HomeGroup Members. We also have a couple of Service Members (mainly Enschede Group) for support and service at our Meetings.

At our Meetings we have different visitors from other Meetings/Groups who are attending our meetings quite frequently. Lately we've had some consistency in numbers of newcomers coming in.

We host four meetings as the Hengelo HomeGroup. At these meetings we study the GreyBook, the Dutch BabyBlue and the Twelve Traditions.

Last April we, together with 4 other Dutch Groups, started an outreach meeting in Arnhem. This meeting takes place every Saturday evening. The purpose of the meeting is to attract local addicts from that area and guide them in their recoveries, so that they can become an autonomous HomeGroup within 3 years.

Our Meetings carry a strong message of the original NA philosophy which stands for Total Abstinence, and we protect the atmosphere of Recovery, through the Twelve Traditions.

Last year was a good year and we were productive as a Group. We have had Growing Pains in our Group and regarding other Groups / Area development.

We have had structural PI at a local detox & treatment facility (we go there every 6/7 weeks). Lately we're struggling because the facility hasn't had a lot of addicts which wanted to come to our presentation. PI efforts include putting up Posters and putting out Pamphlets, stickers and Business Cards. We as the Dutch Fellowship, received 1000 hardcovers and 4100 softcovers of the Dutch BabyBlue.

Our Group is financially healthy. We have our literature tables stacked. We donate funds to the different websites (NAhelp.nl, NAhelp.Org and RFNA), The National Infoline (Phoneline), and support other Groups in and outside our Structure with Literature in the Netherlands and across the Globe when need is there/ support is asked for.

Group Report - A Way Out 2025 FSC

In Zwolle we meet 4 times a week, and we see an increase in the number of people visiting the meeting and in newcomers. The average number at our meetings between 10 and 20 people. We also see addicts find our meeting from our Public Information efforts in the treatment facility we rent our meeting room from.

We have a decrease in actual Homegroup members, because a couple of them left and joined the Emmen Group, which is separate now from us after 3 years of being the same Group.

Also every 2 weeks we have a Public Information moment after our weekly meeting on Sunday, where we go over what we can do to be visible. Things we did in the past year are: presentations for addicts, presentations for professionals, spreading flyers and posters and helping out with the new meeting in Arnhem.

Our meetings are easy to find on www.nahelp.nl and also on our own webpage www.nameetingzwolle.nl This year many new people that find our meeting tell us they search for a meeting online, and find 1 of those webpages.

In the past year we have worked on the translation of *Informational Pamphlets* and *The Paths of Recovery*. And are really happy with using the new hard- and softcover books of the Dutch Translation of our Basic Text.

Thanks for listening. We wish you all a good conference.

Teresa- Grateful Wakeup Group

We continue to have our meetings on Monday, Tuesday and Fridays at 8:30 Central Time. We've added two Home Group members this year. Our Group remains small. Attendance is low outside of the Home Group members, so we could definitely use some support. We continue to provide Gray Books free of charge to any addict in need. We've sent out several this year, and at this point, we actually have three members who mail them out. Now we've divided them up amongst everybody. We also send the Baby Blue, as long as we have it. An issue that we wanted to bring up to the group is that we've had some issues with the Nebraska regional. They have been going to treatment centers and correctional institutions where our books are and it looks at this point, we looked at their minutes, we reviewed their minutes in our Group Conscience meeting, and it was, it was very unkind. And so it's clear their intention is to tell everyone that we are not really NA and to dispose, to have those members dispose of our books. They were told, anytime they see it, it's in their minutes, get it out of their throw it away. So we just kind of want to make everybody else aware of that. And I think Eric's going to send a letter, and we're all kind of going to write something to that regional just saying, you know what the Gray Book has done for us. You know, trying to take a positive thing, but looking through those minutes, it was not kind at all.

Bill- Historical Perspective Group and Recover First Group

Historical Perspectives Group

We have been struggling in attendance. We average around three to five people per meeting. Some meetings can get up to 30 people at a meeting. That's very seldom, but we do get there now and then. We are involved in carrying the message of total abstinence from all mood-changing substances and mind-altering chemicals. That has caused our attendance to drop. We have a lot of mainstream NA meetings around us, they start a meeting on the same night and take newcomers away from our meetings. We will not change the meeting. Instead, we'll start a new PI project so we can attract newcomers. Our Home Group also is hosting the FSC 2025, we've also been paying about 250 a year for the Anonymi Foundation and the FSC post office box. We do not use it as our Group box anymore. We have been a Group who has been responsible for ordering the Baby Blues and Gray Books for the stockpile that transfer for the book stockpile, the FSC payments go for the rental agreement for the FSC, and the food and

other essentials get paid out of our treasury account. We handle, we handle, we get the books sent out to other Groups to order them. There are also three other Groups who have stockpiled the books that order through our Group to keep their stockpile stocked. We're looking at ordering hardback Gray Books and Baby Blues, which I brought copies of here for you to look at because our intention is to be able to order these books. Okay, be able to build stockpiles in at least three different sec, four different sections. Okay, that they have these from their stockpiles, and be able to have them, basically for people who want hardback books, all right, you know they are going to cost more than the Baby Blue. I can tell you that. Alright, the Gray Books are going to cost more than you pay for Gray Books, but if you can pay approximately a little over double for a Gray Book, hardback versus the soft cover. I think it's going to last longer. It's going to be a gorgeous book on your table, but we have been looking at that. We've been working with the Groups in the Netherlands who have, this is the actual hardback Baby Blue. Okay, it's the actual hardback Gray Book, but it's in English. It's not their translation yet, because they're translating it right now. Yet, one day, they all will have a Gray Book in their own language, but our Baby Blue will be a little bit smaller because it's not going to be as many pages, because they take more pages in translating into their own language. It also has the history of the actual input and review process, the translation process in the back of this book, just like we did with the original Gray Book when we had the history in the back, alright, our history of the Gray Book is in the back. Okay, we kept that part. We just didn't put the stories in. So, our history is there. Well, the history of the translation process is here. Any Group can see it, alright, so, but that's our intention as a Group, is to be able to expand that there. We have not gotten the price of these books. We will have them soon. Okay? We will go back over to the Groups and what it's going to cost to get them, what type of money we're going to need up front, okay? And hopefully every Group can get the money put in and be able to make a big order, you know, and that way, when they get here, I'm going to have to have a process of how we're going to get the books there, because I'm not going to be able to store all them books in my attic. And we have proposals this year we're supposed to give them in writing. So I'll give you our report in writing with the proposal, the proposal for the FSC, and we had that:

1. Proposal for the FSC that the other Home Groups share in payment for the PO Box for the Anonymi Foundation and the FSC Intent: So one Group is not doing more than their fair share. All Groups should participate in paying for the service, for the FSC and the Anonymi Foundation that they created.

2. To approve the IP Concerning Relapse Intent: This IP is on Groups literature tables. It has been through literature conferences, and we have not received any more input for this IP. So, it's time for approval.

3. To approve One Addict's Experience with Group Conscience through the Steps
Intent: This booklet is being used throughout the fellowship to learn from one of our members of their accumulated understanding and experience. There has been no input for corrections on misspelling or run- on sentences. It is presented to approve this literature written by one of our members. It is consistent with our message and does not violate any Steps or Traditions.

Recovery First Report 6 27 2025

We have been struggling in attendance we Ave, around 3-4 people a meeting. Some meeting we can get up to 10 people at the meeting.

We are involved in carrying a message of Total Absence from all Mood Changing Substance and Mind-Altering Chemicals. That has caused are attendance drop. We have a lot of mainstream N A Meeting around us. They started a meeting on the same night at the same time to take newcomers away from our meeting. We will not change the meeting, instead we will start a new P.I protect so we can attract newcomers. Are Message is strong we study the Baby Blue Text; we also have a step meeting. We are involved with supporting Historical Perspective and Co-Hosting the FSC

In Service

Ray D. GSR

Group Report Miracle Group Venlo FSC June 27th to June 29th, 2025

Home Group

The Miracle Group Venlo was founded in April 2020 and currently consists of 14 group members. We are an NA group in the south of the Netherlands, following the Twelve Steps and Twelve Traditions of NA, and we are committed to carrying the message. We are a healthy and enthusiastic group with various service positions that are consistently fulfilled. If someone is absent, responsibility is taken to transfer the service position to another Home Group member. New members are actively encouraged to get involved.

Our group members also regularly and enthusiastically visit other groups in the Netherlands, and we maintain close contact with them. Over the past year, we have seen several newcomers join who have continued attending meetings and eventually committed to the Home Group.

The Meetings

Our Home Group holds four weekly meetings: on Monday in Venlo, Tuesday in Asten, Thursday in Venlo, and Saturday in Kerkrade. A positive atmosphere of recovery is present at all four meetings. On Mondays and Thursdays, we typically have about 15 attendees. The Asten meeting currently has fewer attendees, but we are working to increase outreach there through PI. The Kerkrade meeting was started nearly two years ago with the goal of eventually becoming its own Home Group. We are currently working on making this happen. All our meetings receive positive feedback from visitors who say that the message of recovery is being shared and that it is a safe environment. Due to the atmosphere and clear message, we see increasing clean times among members and visitors, and addicts are getting clean and recovering.

On April 12, 2025, a new meeting was started in the Netherlands on Saturday evenings. The meeting location is central for several groups in the country. As a Home Group, we are also committed to this meeting. It is an outreach meeting currently supported by five groups.

Committees

Literature Committee

As literature committee, we produce books for our own Home Group and for other groups in the south of the Netherlands. We have several printers and binding machines for this purpose.

The Basic Text was approved by the Dutch Groups of the Anonymi Foundation on April 27, 2024. We ordered a large stock of hardcovers and softcovers. The hardcovers are distributed at meetings, and the softcovers are taken to institutions where we do PI work.

PI Committee

In the past year, we mailed over 100 letters. These included: flyers, pamphlets, business cards, and small posters. The letters were sent to various institutions: doctors, psychiatrists, psychologists, addiction services, and homeless shelters. Unfortunately, we received little response, so we shifted our focus. We ordered 10,000 stickers with the same text as our banners and 5,000 Spotify stickers.

We currently have four banners placed in the regions of our meeting locations. We continue to search for new locations to place banners.

Since this year, we have commitments at two institutions where we provide PI presentations. At one, we go 15 times per year, and at the other, 4 times per year. We hope to reach and help more addicts this way.

Translation Committee

At the four meetings we hold, we read various pieces of literature. Several members are committed to translating texts into Dutch.

Group Report – Key to Recovery, Emmen, Netherlands

Until October 2024, our Key to Recovery group in Emmen was still connected to the Way Out group in Zwolle. But since then, we've formed our own group conscience and are now running independently.

We started out with four enthusiastic homegroup members and one of the first things we did was set up a group policy. Shortly after, we decided to start a second meeting here in Emmen, on Mondays. So now we hold two meetings each week. In the future, we'd love to start a third one, but for now we're mainly focused on building a stronger base and getting more committed homegroup members.

Our Monday meetings usually have around 8 to 10 people, and Wednesdays are a bit busier, with about 10 to 15 attending. On Mondays, we read a page or chapter from the Basic Text, and on Wednesdays, we use the Gray Book.

Over the last six months, we've welcomed about 15 newcomers. Most of them are locals, which we're really happy about. Emmen has a lot of people struggling with addiction, and we really want to be visible so they can find us.

Most people find our meetings by searching on Google for "Narcotics Anonymous Emmen." We also try to make ourselves more visible by putting up loads of stickers on lamp posts and trash bins, and by hanging posters on community boards in supermarkets and shops.

We've also reached out to some local welfare organizations to ask if we could come in and explain what NA is all about. A few of them invited us over, and we were able to share who we are and what we do. The response was really positive

Eric- Hope Group Nebraska

Hope Group Nebraska ~

We have been giving our free basic texts wherever needed. The Nebraska region has declared war on Grey books asking members to tell institutions to throw them out that they are illegal. We have spent much time getting ahead of this explaining to places we take our books into and they understand. With that said it is a great blessing we get to go to Prison and jail for meetings. We will hopefully support giving freely until we die. If ASIS needs any support besides buying more Grey books please let us know. God Bless

Paul H.

Group Reports to continue on Day 2- Saturday

Historical Perspectives Group will give a financial report Saturday

Day 2- Saturday

Overview

The morning session discussed international reports, financial status for the conference, and the legalization of the Anonymi Foundation. Arash from Iran reported on the impact of the war and the challenges faced in Iran. The financial report showed 22 paid registrations totaling \$2,970, with a remaining balance of \$1,845.

In Old Business the Groups of the FSC approved two pieces of literature: *Personal Responsibility* booklet and *Home Group* booklet. They also passed two first year motions. The first removes motions from the agenda that are not supported by an existing Group. This will remove 3 motions from the agenda for next year. Another first year motion passed to have the FSC trusted servants to maintain a document of all passed motions of the FSC.

The conference discussed the PMA model for the Anonymi Foundation, emphasizing Group autonomy and non-professionalism. The bylaws were reviewed, highlighting the foundation's structure and non-governance. Arash shared his legal battle against a misguided fellowship in Iran, seeking support and solidarity. The meeting discussed the cultural and religious conflicts within Narcotics Anonymous in Iran. He highlighted the issue of relapses due to the separation of Traditions and Steps, and the perceived promotion of Christianity. A member suggested involving Muslim members to clarify the compatibility of NA with Islam and how we are not a religious organization. A report from Russia detailed the revival of NA meetings, increased attendance, and new initiatives, including translation of the Gray Book.

Opening statements by Erik followed by Serenity Prayer

Announcement that international members will share reports when they are available.

Historical Perspectives Group Financial Report update

22 paid registrations at \$135.00 totalling \$2,970.00

After groceries and a down payment for next year that leaves us with a balance of \$1845.00 (a final report will be at the end of the minutes)

Old Business

Niek reads the Twelve Traditions of Narcotics Anonymous

Minutes from the 2024 FSC are handed out to all GSRs for approval

Eric D. makes a motion to approve the 2024 Conference minutes

Motion seconded by Daniel

Minutes from 2024 are approved by all 7 Groups in attendance

Anonymi Foundation Report

Report was done with a slideshow

*** The Anonymi Foundation Summary is a summary of the research by the agent that was presented in a slide show at the FSC. There were bylaws presented and discussions on changes that needed to be addressed but a Group would need to make a proposal to put all of this into effect. This is just to make this clear that this is not a proposal.***

7/12/25

2

1

Why PMA?

- ▶ The PMA model preserves spiritual autonomy, avoids governmental interference, and aligns with the Twelve Traditions of Narcotics Anonymous.

3

PMA Benefits

- ▶ No professionalization or profiteering
- ▶ Unity without central control
- ▶ No outside affiliations or funding
- ▶ Focus on message, not media

4

Legal Stewardship

- ▶ The Foundation acts as a guardian, not an owner, of copyrights, trademarks, and literature. These are managed as spiritual trusts.

5

Bylaws Summary

- ▶ Autonomy of Home Groups
- ▶ Annual Fellowship Service Conference (FSC) as a Spiritual Collection of Group Conscience and Communication and Direction From the Home Groups
- ▶ No central treasury
- ▶ Trusted servants, not authorities

6

Leadership & Finances

- ▶ Leadership is exercised through spiritual example. The Foundation holds no central funds and does not solicit outside contributions.

7

501(c)(3) vs 501(c)(7)

- ▶ 501(c)(3): Public charities, tax-deductible donations
501(c)(7): Member-based, non-deductible dues
Anonymi Foundation: Chooses PMA for autonomy and privacy

8

FEATURE	501 (C) (3)	501 (C) (7)
Primary Purpose	Charitable, educational, religious, scientific, literary	Social, recreational, or pleasure-based activities
Target Audience	General public or underserved populations	Exclusive group of members
Membership Requirement	Not required	Required
Tax-Exempt Status	Yes	Yes
Donations Tax-Deductible	Yes – to the donor	No – not tax-deductible
Eligible for Grants	Yes	Rarely eligible
Revenue Sources	Donations, grants, program income	Primarily membership dues
Commercial Activity	Very limited	Strongly restricted
Political Activity	Strictly limited	Limited
Use of Funds	Must serve public good	Must benefit members only
Requires IRS Filing	Form 1023, Form 990	Form 1024, Form 990/990-EZ
Examples	Schools, charities, churches	Golf clubs, private societies
Best For	Public service missions	Member bonding or hobbies

9

Aspect	501(c)(3) Organization	Private Membership Association (PMA)
Legal Status	IRS-recognized tax-exempt nonprofit	Private contractual organization
Purpose	Charitable, religious, educational, etc.	Private interest of members
Tax Benefits	Tax-exempt; donations are tax-deductible	Not automatically tax-exempt; donations not deductible unless IRS-approved
IRS Involvement	Must apply for and maintain IRS status	Generally no IRS involvement unless applying for tax-exempt status
Reporting Requirements	Must file annual Form 990	Minimal to no mandatory public reporting
Public Disclosure	Financials and governance often public	Operates privately under contract law
Political Activity	Strict limits on lobbying and campaigning	Fewer restrictions unless claiming tax exemption
Common Uses	Nonprofits, charities, religious groups	Alternative health, education, spiritual groups

10

USA

- Incorporate in a state (e.g. Pennsylvania, Delaware, New York).
- File Articles of Incorporation including nonprofit purpose.
- Adopt Bylaws and apply for EIN from the IRS.
- Submit Form 1023 for 501 (c) tax-exempt status.
- Open a nonprofit bank account.

11

The Netherlands

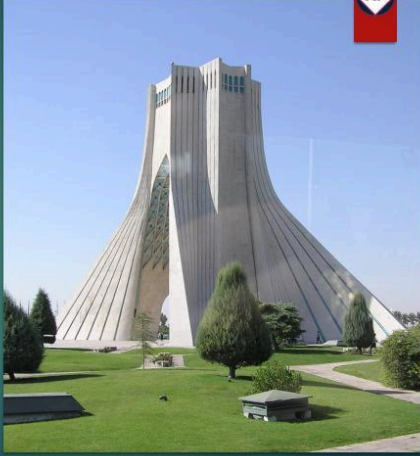

- Establish as a Vereniging via a Dutch notary.
- Register with Kamer van Koophandel (KvK).
- Apply for RSIN and ANBI status if applicable.
- Ensure GDPR compliance for EU data.

12

Iran

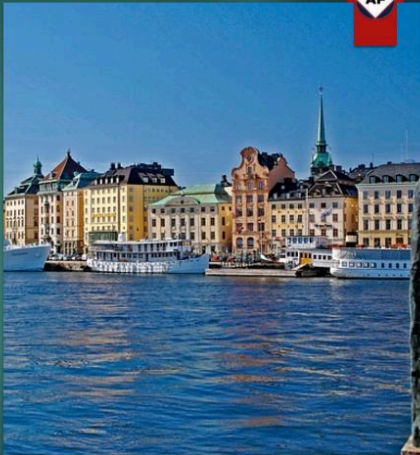

- Work with local legal advisor or NGO partner.
- Apply for NGO license via Ministry of Interior.
- Translate and submit Farsi statutes.
- Ensure operations comply with sanctions and local restrictions.

13

Sweden

- Register as an Ideell Förening or Stiftelse.
- Draft bylaws and founding documents in Swedish.
- Register with Skatteverket and obtain tax ID.
- Apply for F-tax registration if handling revenue.

14

United Kingdom

- Choose structure: Charitable Incorporated Organisation (CIO) or Company Limited by Guarantee.
- Register with Charity Commission or Companies House.
- Draft constitution or articles and apply for HMRC charity status.
- Comply with UK GDPR.

15

Germany

- Form as an eingetragener Verein (e.V.) or gemeinnützige GmbH.
- Draft statutes (Satzung) and conduct founding meeting.
- Register with Vereinsregister and apply for charitable status (Gemeinnützigkeit).
- Open a nonprofit bank account and comply with GDPR.

16

Russia

- Establish as a Non-Commercial Organization (NCO) under Russian law.
- Choose the legal form: Foundation, Institution, or Public Association.
- Register with the Ministry of Justice of the Russian Federation.
- Translate and notarize founding documents into Russian.
- Ensure compliance with laws regarding foreign funding and reporting obligations.
- Open a local bank account under the organization's name.
- Review legal restrictions related to political, media, or international affiliations.

17

Conclusion

- The Anonymi Foundation, through its PMA structure, maintains spiritual integrity, member focus, and recovery-centered service.

18

Anonymi Foundation Summary

1. Why the PMA Model Suits the Anonymi Foundation

Why the PMA Model Suits the Anonymi Foundation

The Anonymi Foundation exists to carry the message of recovery to the addict who still suffers, not through power or policy, but through spiritual principles, mutual service, and group conscience. The Private Membership Association (PMA) legal structure is uniquely suited to preserve and protect that mission because it reflects and respects our core values rooted in the Twelve Traditions of Narcotics Anonymous.

1. Spiritual Autonomy over Legal Conformity

"Each group should be autonomous except in matters affecting other groups or NA as a whole." – Tradition Four

The PMA framework allows us to operate under common law, outside of government interference or regulatory burdens. Just as each Home Group is autonomous, so too is the Anonymi Foundation. We are not incorporated, do not operate as a nonprofit, and do not seek tax exempt status because our primary purpose is spiritual, not commercial.

This legal independence mirrors our spiritual autonomy, allowing us to be guided solely by group conscience, not external authorities.

2. No Professionalism No Profiteering

"NA is a nonprofessional fellowship. Our primary purpose is to stay clean and help other addicts to achieve recovery." – Tradition Eight

The PMA model supports the nonprofessional nature of our service. It gives us space to employ special workers if needed (for example, printing or administration), without turning our fellowship into a paid profession or commodifying the message. This ensures that service remains spiritual not transactional, protecting the purity of the message and the humility of those who carry it.

3. Unity Without Central Control

"For our group purpose there is but one ultimate authority a loving God as He may express Himself in our group conscience." – Tradition Two

The PMA does not impose governance it enables service based structure. It legally shelters our Home Group centered service model, where the Fellowship Service Conference exists to receive guidance from the Home Groups, not dictate to them. Just as our leadership is

expressed through trusted servants, not authorities, the PMA framework protects that structure from being coopted or bureaucratized.

4. No Outside Affiliations or Funding

"Every NA group ought to be fully self supporting, declining outside contributions." – Tradition Seven

The PMA structure allows us to explicitly reject government grants, corporate donations, and outside influence. We are funded by our own Home Groups never by external entities. This safeguards our spiritual integrity and ensures that we remain accountable only to each other and to the principles we serve.

5. Focus on the Message Not the Media

"Our public relations policy is based on attraction rather than promotion." – Tradition Eleven

Unlike incorporated nonprofits which often rely on marketing and public branding, the PMA lets us remain low profile, spiritually grounded, and inwardly focused. It protects our right to operate privately without public scrutiny, while still enabling us to steward literature, trademarks, and archives on behalf of the fellowship not for its control but for its protection.

6. Legal Stewardship Without Ownership

The PMA gives us a legal mechanism to hold copyrights and trademarks not as property but as spiritual trust with accountability to the Home Groups. It allows the Foundation to act as a guardian not a ruler of our shared resources and identity.

Conclusion A Legal Form that Honors a Spiritual Fellowship

The Private Membership Association is not just a legal shelter it is a spiritual reflection of our fellowship's conscience. It provides the freedom, protection, and privacy needed to ensure that the message remains clear, the groups remain free, and the structure remains humble.

By choosing to form the Anonymi Foundation as a PMA, we are walking in alignment with the Traditions of Narcotics Anonymous preserving our autonomy, safeguarding our spiritual focus, and ensuring that our collective conscience not courts, corporations, or cash is our ultimate authority.

2. Anonymi Foundation Bylaws

Bylaws of the Anonymi Foundation

Preamble

The Anonymi Foundation is a Private Membership Association (PMA) organized for the spiritual purpose of carrying the message of recovery to the addict who still suffers. These bylaws are informed by the Twelve Traditions of Narcotics Anonymous and are intended to preserve the spiritual integrity, autonomy, and group conscience of the fellowship.

Article I: Name and Legal Structure

- 1.1 The name of this Private Membership Association shall be Anonymi Foundation.
- 1.2 The Anonymi Foundation is set up by the Home Groups to serve the Home Groups.
- 1.3 It is established under common law principles as a Private Membership Association and shall remain private and unincorporated.

Article II: Purpose and Membership

- 2.1 The primary purpose of the Anonymi Foundation is to provide support, guidance, and a spiritual structure for Home Groups whose members seek freedom from active addiction.
- 2.2 The members of the Anonymi Foundation are the Home Groups who align themselves with the Twelve Traditions and express a desire to participate in this spiritual structure.
- 2.3 Individual addicts are members of their Home Groups. The Anonymi Foundation recognizes Home Groups as autonomous and self-governing.

Article III: Autonomy and Unity

- 3.1 The Anonymi Foundation shall take no action that infringes on the autonomy of any Home Group.

Article IV: Structure and Governance

- 4.1 The Anonymi Foundation uses the annual Fellowship Service Conference (FSC) as a vehicle for its decision-making and communication.
- 4.2 All decisions affecting the fellowship as a whole shall originate from the Home Groups and be voted upon by their Group Conscience.
- 4.3 Boards and committees may be created by the Home Groups and will be directly accountable to the Home Groups.
- 4.4 All motions that are on the agenda for the first time need a 100% Yes vote to be approved. The second time a motion comes up, an 80% Yes vote will have the motion approved.

Article V: Leadership and Trusted Servants

- 5.1 The Anonymi Foundation will have no governing body or authority.
- 5.2 Trusted servants may be appointed to support the functioning of the FSC and service committees, but they do not govern.
- 5.3 Leadership is exercised through service and spiritual example, not authority.

Article VI: Financial Policy

- 6.1 The Anonymi Foundation shall not collect contributions directly from members. Contributions occur at the Home Group level.
- 6.2 The Anonymi Foundation shall hold no central treasury on behalf of the fellowship and shall not solicit or accept outside contributions.

Article VII: Literature Policy

- 7.1 Literature development and distribution should be done by addicts, for addicts, at cost, without profit, and with open participation.
- 7.2 This participatory service structure is a reflection of the fellowship's spiritual principles.
- 7.3 Autonomy, cooperation, and non-dictation are key to unity and service.

Article VIII: Copyright and Trademark Stewardship

- 8.1 The Anonymi Foundation serves as the legal arm responsible for filing copyrights and trademarks on behalf of the fellowship, both in the United States and internationally.
- 8.2 In the event of a copyright or trademark violation, Home Groups may bring the issue to the attention of the Anonymi Foundation.
- 8.3 The Anonymi Foundation shall only take legal action on such matters with the direction and approval of the Home Groups.
- 8.4 This structure ensures that the Anonymi Foundation acts solely as a steward and not as a governing authority.

Article IX: Non-Affiliation

- 9.1 The Anonymi Foundation shall not endorse, finance, or affiliate with any outside organization, enterprise, or facility.
- 9.2 The name "Anonymi Foundation" shall never be used to promote any cause, product, or political viewpoint.

Article X: Nonprofessional Nature of Service

- 10.1 The Anonymi Foundation shall remain forever nonprofessional in accordance with Tradition Eight of Narcotics Anonymous.
- 10.2 While the Anonymi Foundation may employ special workers for administrative tasks if needed, no member shall be paid for their service in carrying the message.
- 10.3 All trusted servants serve in a voluntary capacity and do not act in a professional role related to recovery.
- 10.4 This ensures the preservation of spiritual integrity and avoids the commercialization of service.

Article XI: External Neutrality

11.1 The Anonymi Foundation shall have no opinion on outside issues and shall not be drawn into public controversy.

11.2 The Anonymi Foundation's focus shall remain entirely on recovery from addiction as guided by the Twelve Traditions.

Article XII: Amendments

12.1 Amendments to these bylaws may be proposed by any Home Group.

12.2 Proposed amendments must be submitted to the FSC and distributed to all Home Groups for conscience-based voting.

12.3 Amendments require the support of two-thirds of responding Home Groups to be adopted, except during the first year, in which case 100% unanimity is required.

Article XIII: Dissolution

13.1 In the event of dissolution, any spiritual materials, archives, or resources shall be entrusted to active Home Groups or an agreed-upon spiritual custodian.

13.2 No assets shall be distributed to any individual or outside organization.

End of Bylaws

These bylaws are intended as a living expression of spiritual principles, to be upheld in humility and mutual respect among the Home Groups of the Anonymi Foundation.

3. 501(c)(3) vs. 501(c)(7) Comparison

501(c)(3) vs. 501(c)(7) Comparison

This document compares the features of 501(c)(3) and 501(c)(7) nonprofit statuses to help organizations like Anonymi Foundation determine the most appropriate classification.

Feature	501(c)(3) – Charitable Organization	501(c)(7) – Social/Recreational Club
Primary Purpose	Charitable, educational, religious, scientific, literary	Social, recreational, or pleasure-based activities
Target Audience	General public or underserved populations	Exclusive group of members
Membership Requirement	Not required	Required; must have defined, limited membership
Tax-Exempt Status	Yes	Yes
Are Donations Tax-Deductible?	Yes – to the donor	No – not tax-deductible
Eligible for Public/Private Grants?	Yes	Rarely eligible
Revenue Sources Allowed	Donations, grants, program income, limited unrelated income	Primarily membership dues; limited nonmember income
Commercial/Business	Very limited; must support	Strongly restricted; cannot

Activity	mission	operate as a commercial business
Political Activity	Strictly limited (no endorsements or campaigning)	Limited; must not be a political group
Use of Funds	Must serve public good	Must benefit members only
Required IRS Filing	Form 1023 (or 1023-EZ); Annual Form 990	Form 1024; Annual Form 990 or 990-EZ
Examples	Schools, charities, humanitarian orgs, churches	Golf clubs, social societies, private online communities
Best For	Public service or philanthropic missions	Private member bonding, networking, or hobby groups

Group Reports Continued

Arash Report for Iran on Zoom

Arash- my name is Arash, I'm an addict. Speaking to you from ____ in Iran. Recently, we got a 12 days war with Israel and America and but you know, during these days, recovery meetings never cancel, none of them, and everybody attended to the meeting, especially in these days. And you know, when I heard governmenters, I really felt peace by the same time that the planes are in the sky of Iran, I mean, Israeli air force plane, they were there was bombardment. But, you know, we hide each other, and I felt peace in that special heart that reminds me a piece of the basic text by Becky, maybe Jimmy K's wife, when she wrote for us as a beautiful heritage and legacy, she mentioned something in her, you know, the story of her life. She said quote "in a word with such a turmoil, I feel I have been blessed to be here." It's a golden line of Betty remainder in the basic text "in a world with such a turmoil, I feel I have been blessed to be here" and now, I think not only I'm blessed to be in Narcotics Anonymous, but I also am blessed to find the I message of Narcotics Anonymous through you guys over there. Thank you for keeping this message clean, because our message is not somehow, somewhere is clean, and people are, you know, misuse it, and everybody do his or her interpretation. But above all, the World Service, the fake World Service, misused our name and stole our name in this country, in my country, in the past year, in the year gone, a new fellowship appeared here. They were guided directly by the World Service, the using narcotics, anonymous principles, using a name, but by different translation in our language. They try to change everything, and we doubt them heartily, and our members fought them bravely, and we beat them finally, but they are still around, and they are still trying to steal and take everything from us. But you know, they are not very, very powerful, as fair say, because we did a lot of things to destroy them, and we destroy them, and thank God our fellowship back to the normal situation. But they are still around. You know they are taking a lot of money from the World Service to you then continue their job by so called Narcotics Anonymous it's a new, actually, I can call it track of World Services by Anthony and his agency here, by the way, I myself, I did a lot of public relation activity against them. I was alone again, but not as past years, because, I mean, six years ago when I found you guys, I was really alone, but right now I have some people around me. It's very, very warming for me that the I have them with me, and they are so loyal to me, and they are, but they still need time to be 100% pure Narcotics Anonymous, because it takes time for them and because they are still they are for long years, they were behaved like a machine by narcotics and by by now, and it takes time for them to recover from that situation, but they are now on a good way, and

they are coming slowly but surely. Every day I got more and more people around me, and some of them in first they jump out, and some of them are slowly coming around me and get the real message of narcotics anonymous, by the way, because I was really successful. To beat that new fellowship, to beat that new fellowship, I have to beat and destroy the war in faith World Services, they finally sued me, and today I was in the court, and I was in the court today, and the you know, preliminary judge told me something, and I back home, but they are ready to do anything against me just fucking doing fake World Services. But I am also ready to do anything to keep the Narcotics Anonymous message safe and keep it and save it and give it to the next generation. I'm really willing to do that, because this fellowship saved my life. And of course, I mean some people like Jimmy K, Billy Allen and our predecessors, they all really have a special place in my heart. I haven't seen I never seen Jimmy K or Greg Pierce or Big Lou or David Moorhead. Had a grateful day, but I can feel them. I can feel them. I can because I can feel the real message of Narcotics Anonymous that's so beautiful and powerful. So I'm ready to do anything, because this Narcotics Anonymous gave me back, bring me back to the life. And I'm ready to give my life to keep this message, message safe and clean. And in the next week, I have another round of that court, and I'm gonna tell to the court that I'm ready to give my life for this fellowship, no matter what they do, and I know God will save my life for them and I got a translation of the Basic Text was done by me and that past year and we uploaded it on our nahelp.org, our website and we translated a part of the Gray Book Twelve Traditions and I'm ready to start the next part of my translation process which is the complete Gray Book from the first to the end. I'm going to start it tomorrow if you pray for me and God gives me the power. Thank you, that's all I've got for today. Thank you very much everybody.

Bill- Arash, can you tell me more about this court case that's going on?

Arash- Actually, the accuse me for doing and giving wrong information about some people because you know, what i did, I introduced NAWS agents, we were in danger of losing everything. So what I did, I introduced by numerous videos, the face of them. And they love their face. And everybody of the suit that are appearing by the name of Narcotics Anonymous and introduces themselves as the real Narcotics Anonymous, but I inform everybody that no, they are not Narcotics Anonymous. They are just people misguided. Do not listen to them. That's why they sued me. I just want to tell you that there is something bad happening over here. I understand your situation in America. You have a special culture. Everything is okay. If you see something special in Christianity in your way, that's okay for you. But here, in my country, because the majority of the people are muslims, when they see some fucking books like Living Clean, Guiding Principles, written by professional writers, many of them are priests or working for church or in the Catholic system, those writers. They are injecting, for

example, the new testament or the old testament to our people. That's why, here in my county, after coming to the fellowship and stop using drugs and working a few steps, they try change their religion and they go back to Christianity. They don't go back to, they change their religion to Christianity. And I believe that is special guidance from that fucking NAWS to change their religion and they left this country by changing their religion. Even in the Basic Text it says somewhere that our solution is not in the church, our Basic Text mentions the name of the church. Exactly the name of the church. It says, our solution does not lie in places like church. Because this special type of hypathetic books, motivational books, the people are like new testament or old testament it has created a church atmosphere. Some of them change their religion, some of them their fellowship. Some of them go to the Alcoholics Anonymous because in that atmosphere, you can see almost a pure church atmosphere over there. So now, and they slowly become something special. It can become everything but not recovery atmosphere. That was what I'm going to tell and share in the courts, in my next meeting to the government. I never ever wanted to go to any court because I know it effects our Traditions to go to the public. So they started it and I will finish that game. I do it to *#@* their face. So tomorrow I'm going to go to special intelligence service for this country.....(cuts out).....and this fucking company called NAWS. They are very rude. How bad situation, how dare they are. When this war started in Iran, our leader said that "you start the death game and we will finish it." and now i feel that "you start that game NAWS and I will finish it." Tomorrow I go to improve my situation at that court, that is what I'm going to do.

Erik- does anyone have questions for Arash?

Brian- I love you Arash.

Arash- thank you, I love you too man.

Bill- well, you let me know if there's anything I can do to help you, okay?

Arash- thank you, thank you, maybe we will invite you as members who are aware about the situation to speak to us, in a conference like this. Okay, and you tell to our government that this is not religious and in this fellowship we only have just one word, the rest of the stuff is written by people... and this is pure capitalism, imperialism system that allows itself to sells books to people to fund rehab centers all over the world. Narcotics Anonymous is not a company. Narcotics Anonymous is a fellowship it's a nongovernmental organization. Belonging to the people. In Iran, nobody has a problem with the people of America, but we have a problem with the government. That NAWS is a part of the government in the United States. It's a part of them. That's why we see in

this fellowship we see so many relapse, because they separated by the Traditions and the Steps. So, everybody working the Steps and when people are just trying to work their Steps without Traditions they have a bad future. Because, without Traditions we lose our way. But this is what they do, this is what the government do with us. The Step Working Guide, the green and gold book do that to us. This is what those books did to us. So many relapse here, more than the people who save their life in this fellowship we see the people who are sacrificed with this. They are slaughtered by the NAWs rules actually. This is what happened. This is why when I share this message I try to do my best and everyday actually more will be revealed to me as I discover more and more about the real NA, that's it. Thank you.

Teresa- I just want to make sure I'm understanding that originally what they're doing is not respecting the culture and dominant religion, they're putting a religion on NA. Is that correct?

Arash- That is, that is correct. Because the books that they have written is for this special people. I mean there are priests that are working in the church system, special, I mean professional writers, but somehow that's okay. In America, maybe for some people, but here in my country, No! It's a promotion for Christianity.

Teresa- are addicts, I would expect that if I were from Iran that I wouldn't have a good view of NA if I went to one of those meetings, I would feel like my faith didn't fit in if I were muslim correct? Is it hurting addicts because they go to these meetings and they are essentially a christian meeting? I would think that would hurt the image of NA there.

Arash- of course, in this country some of us are resented from islam. As soon as we see something about Christianity we say oh! The solution is in Christianity. This is the problem.

Mickey- I have a question, we have many muslim members in Narcotics Anonymous here that have a close relation with the Quran and the muslim faith and are active members in Narcotics Anonymous. Would it be helpful if we made some of those names available to you so that those muslim members could explain how their membership in Narcotics Anonymous is not a conflict with their Islamic faith?

Arash- of course, that would be really helpful for me in my court actually. Me myself, I have a friend named uh, what was the name of that man in Puerto Rico, do you remember Billy?

Billy- I can't remember his name right now. You also have Yaya who can help you with that.

Mickey- we will give you a list of names and email addresses and phone numbers for contact people that are strict muslims.

Arash- if I disappear for 2 or 3 months I will definately be in jail. They are really brutal and they want to kill me. They are really wanting to put me into prison. Maybe I will be in prison very soon.

Billy- anything you need you can get ahold of me, I'll take care of it. I can also get Yaya to get a hold of you okay?

Arash- thank you, love you everybody

Russian Group Report

Hello everyone, I'm an addict, Dima, GSR of the NA Home Group Osnova . We've been holding our meetings since May 2021. Until 2024, we held live meetings, but since the summer of 2024, we've switched to online meetings. For about a year, attendance was very low, It seemed to us that the group was dying. However, two months ago, new members started joining, and as of today, the number of trusted servants has increased from two members to six. The attendance of the group has increased to 10 people. We have opened an additional day for the study of the Gray Book (Monday at 19:00 MSK) . We have also resumed the proofreading of the Gray Book translation, every Sunday at 18:00 MSK. We have prepared a new layout for the 2nd edition of the Basic Text, corrected errors, and added an appendix with the history of the Basic Text and links to the original sources. We have also decided to resume our meetings for writing NA literature, and the first trial meeting will take place this Sunday at 18:00 MSK. We want to continue working on the "Recovery Tools" booklet, which was developed in 2020-2021. Additionally, we are working on updating the nahelp.ru website to allow non-service groups to post meeting schedules. We have revived the PI stickers and are looking for ways to reach out to rehab centers to carry the message to those who are still suffering. We are also establishing cooperation with other groups studying the Grey Book.

Today, only three groups have survived out of five.

Survived:

Our group Osnova(online format)

Grey Book Chat(online format)

Gaba(live format in Moscow)

Closed:

Istok(live in Moscow)

Baza(live in Ekaterinburg)

Today, the service structure in Russia has started a "witch hunt"

In loving service,

Dima Sh.

Conference closed with prayer until after lunch

Overview

The meeting discussed the production and content of the "New Old Na Way" magazine, noting a decline in contributions over the years. The group debated the autonomy of the Anonymi Foundation, emphasizing its independence from government interference and its role in supporting Home Groups. They also addressed the need for clear definitions of membership and voting power, ensuring that the foundation remains non-directive and focused on its purpose. The discussion included proposals to clarify language and ensure the foundation's actions align with the 12 traditions and Group autonomy.

Magazine Report

Erik F

We haven't written an official report. I'm one of the people that works on editing, like putting it all in a booklet, Matt is also involved in it, and bringing out the magazine. It's called the New/Old NA Way, we didn't have a report, since there has not been a lot of activity we used to have, like, every two months, we could make it a we could make it a volume of the magazine, because we are getting input from people that writing articles, Groups that wrote articles. So we had enough material in the years before, since a couple years, that has decreased until the point that, at this point we have the last two or three years, we have the Conference Agenda Report, that's the magazine. We have the conference report, that's the magazine. And in the Netherlands, we write during the EFSC, during the conference, at the conference, we write a report so all the people that are attending, we do a writing workshop, different groups, write articles, and then before the end of the weekend, we have it all in a booklet form, and people can take it home. So that's basically, at this point, how it goes.

Eric- I just had a question, maybe a suggestion. I've been trying, I know I haven't been on there much like on Radio Free but I put on there. You know, trying to get addicts to write about how the Gray Book has affected their life and stuff, and what we what our Home Group has talked about is to take those stories from people, so I can take that to region with me. If there is any way getting a magazine with stories about people, with stories about the Gray Book, it would be greatly appreciated. I have to go the conference is July 19.

Erik- So that's a request or a suggestion?

Eric- Just a suggestion. Yeah, there are a few stories on there. But if anybody because, you know, they just think that order is they're threatening to get all those books out.

Teresa- No, actually, they said dispose of them in their minutes. Yeah, they literally told them, get them out and just if you see them, dispose of them.

Erik- So you think it would help?

Eric- I hope this will help, and that's what our Home Group has talked about. We've talked about doing this.

Erik- so that's basically from my side. What I could share. I don't know if you have anything to add on that, Matt.

Matte- no other than we are always accepting articles and we need articles in order to make a magazine. Or else we will just be recycling old ones. So, we need input and we need articles.

Open Forum

Some questions and discussion on the Anonymi Foundation regarding the PMA vs 501c3.

Eric- the only thing that I'm seeing, and I don't know about the only thing I've gone right away, is that PMA may have limited reasons. Should they not be recognized by institutions or challenges if they operate in a way that is perceived as detrimental to the public, which I don't really think that's going to be a problem for us.

Shawn- the only other common places where something like this is used is with the old Amish and Mennonites.

Eric- Basically it says, like membership is by invitation or registration, right?

Bill- Well, first of all, the way we're looking at it, it's Home Group's, okay, Home Group membership, right? Each Group itself, okay, goes over their membership. Okay, so we do have membership. Okay? This conference has membership. It's the Groups. The Groups direct it, alright, so there is no drawback. I went over that with the attorneys of what I was talking about. He said there is no drawback there, because of the way we operate.

Teresa- My only question is, so I agree with everything, but since we have, don't have funding, is there annual renewal fees and things like, in the state of Ohio, when you register an entity, you have to renew it, and you have to every year, and you have to send articles of incorporation updated. There's a form you have to fill out every year, but usually there's usually a small fee. And I didn't know how.

Bill- There's none of that in PA okay? We will be registered in Pennsylvania for a purpose because of the Third District Court initially, there'll be fees for set up, yes.

Eric- Would that be something run through a Home Group?

Bill- yeah, we'll run all that through our Home Group, the money to come flowing through there, because we already have our EIN number and everything else through the government. Okay, our Group has that, okay, we did that because of this conference and our literature conferences. We have our Group registered with the federal government for that purpose. Okay, financial issues, okay, you got to be when you have

to run money through things and you got to get payment, and the conference, we have no setup here. We didn't want to do that, partly that the group goes through a group that got the account, okay? And then the group will have to give reports on everything.

Teresa- So it's like, hosted by the right?

Bill- Yeah, okay, and we're not going to not be questioned at all by the federal government, because we don't run enough through it. Once we run through it, then we're going to have to file them reports. That'll be our responsibility as a Group to do that then.

Shawn- so all we'll have to do is just account for the money coming in and document where it went. That's all we'll have to do.

Brian- for right now, Historical Perspective is the only Group that has that status, right,

Bill- correct.

Brian- Doesn't mean that any one of y'all can do that, and it's probably a good idea for at least one other to be able to run funds through it. And the other thing is generally no IRS involvement, unless applied for.

Eric- the Grateful Wakeup Group also has an EIN number.

Teresa- And since you won't have money, then the nonprofit things, no issue. We don't need to do a lot of.

Shawn- if we vote for 501 then we're then we're a nonprofit tax-exempt organization. If we go through the private membership association, we are not.

Teresa- 501c3 that's expensive to get.

Bill- I want to clarify something, with the 501c3 it opens too many opportunities to do what World Service did okay to take control over the fellowship. Okay? They run conventions, to run large amounts of funds through it, okay? And they have a real tax nightmare because of this stuff. We don't want that here, right? Take notice. Every way this is set up is for the Group's to direct us, the Groups tell us what to do, and we just fulfill it. That's all we do. And that way you cannot have a hierarchy, we say, the inverted pyramid, as was designed by Greg.

Teresa- So the board's just trusted servants.

Bill- A lot of people get upset because we don't move fast. Well, we don't move if you don't tell us to move, and it's frustrating at times. Okay? We want to take control. You know better, right? Well, that's what happened with World Services, they all knew better, and they took total control of the fellowship, okay? That's what happens, all this greed comes in, all these servants that have been there forever through sponsorship families, and they think they know better than everyone. It's nuts, this avoids all that.

Brian-so I have a question for a Grateful Wakeup and for Historical Perspectives, if another group that doesn't have this EIN and that protection wishes to do a function. Would either one of you, guys or groups, or both of you? Are you willing to work with any other Groups?

Bill- Our Group works with any of our Groups like when we had literature conferences, our Group ran everything through our account. We've got insurance. We've got everything. I signed all the contracts, regardless of who hosted it, so another group can stay with you guys, right? And that that's been done before. Yeah, we did accomplish. We did New Jersey okay with both facilities. They did the initial negotiation, and I can move on and talk with them. We do that already.

Eric- One question I do have, and it might get a little complicated but we're talking about insurance but like, I don't even like saying their name, but NAWS has basically like where they have insurance for everybody. Now with the PMA, if we choose that one, can we run something similar through that through a Group?

Bill- Everything can be run through a Group that has EIN numbers, okay?

Eric- so everyone would have to get an EIN number.

Bill- no to get the insurance policy that you're talking about. But we must negotiate. We got to look through it all. How many Groups, how many bids, what's the coverage? Okay, then that got to be a negotiated contract, okay? And that could be run through a Group, and the other groups don't have to have EIN numbers, okay?

Erik- so obviously there's different countries also, like in the Netherlands, we are looking into this. We don't have the same options or system, but we need something that's quite similar, and we have to look at, for example, we want to have the copyrights of our literature, we will have that internationally protected.

Bill- let me go through something you're talking about internationally. Everything runs through the Anonymi Foundation. We get them registered in two places in the United States, the copyright Trademark Office and the world and the world court, I mean, the world copyright, trademark

Teresa- and that covers every country.

Bill- Yeah, that covers 188 countries. It does all that. Okay, I file that stuff at the amount of my foundation. They'll have a cost. I'll let you know what the costs are. Okay? And and get right down in DC, okay? And I go over, I walk everything into both places, get it filed, get everything taken care of. But we needed the legal status first before they would accept it.

Teresa- okay, the Group or the Anonymi Foundation then would own the copyright?

Bill- No, we are only a housing place. We need a legal entity. Yes, however, it is the way we're filing it. Okay? We don't own it. We are just in trust of the Literature. The Groups that are part of the FSC, the EFSC and each country were set up their Groups own everything. It's the way it was supposed to originally be set up.

Brian- However, just because we have this FSC entity doesn't mean that you can't go ahead and do what you guys are talking about, correct, and do it too. That would be localized, yes, to make it worldwide. You bring it here. Does that make sense?

Bill- The copyright and stuff, everything gets sent to me. I already got it. I already got the copy of the Dutch Basic Text, okay, alright. I already got the copy of the Iranian stuff. Okay, they send it to me once we're legalized, we don't get to wait for them to be legalized to protect their material. We can protect this for them right off the dots. They must go through the world copyright. Each country does not have their own copyright stuff. Most of the world would write copyright stuff to the world, okay, we do it two ways here. We go to the United States one, and then we go to the world one, okay, then it's protected in every country, okay, and you need an agent for that.

Teresa- so excuse me, because I'm sure this question has already been answered, but I'm new. Can World Service challenge this?

Bill- No, they cannot challenge it. Anyone can challenge any, anything. We can challenge every copyright up to 1989 that World Service has. And we can do that. And we may end up doing that okay, because they stole the property of the fellowship of Narcotics Anonymous intellectual property they stole. They're not challenging us.

Teresa- That's what I meant. Do we expect them to...

Shawn- No

Bill- They haven't challenged us. We don't expect them to.

Teresa- is it the Gray Book and the Baby blue that are not NAWs owned?

Bill- they don't own it.

Matte- or the Approval Form.

Final thoughts on PMA presentation:

Bill- it keeps your autonomy, yes, and we have no authority at all. And that's what this did, and that's why the wording is important, the structure is important, that this is a true, inverted pyramid, like Greg originally wrote the inverted pyramid. This is a true inverted pyramid, the way we set, the way we got this input back, and what this direction is, what you ask us to do, and we have fulfilled that now. And now there's other things like the Anonymi Foundation summary that it's going to go on next, okay? But everything is for the autonomy of the Home Group and controlling their destiny.

There were questions and discussion from several members about whether or not this was a motion on the floor or could be put into motion. The Anonymi Foundation Agent (Bill) responds:

Bill- I've been directed at the Anonymi foundation for years to work on this. Last year we established the board, which is approved, and I said last year when we approved this board, the problem is we don't have a vehicle established, that when we bring this stuff back to get it approved, I should say you got to remember that folks. I said, remember that when you go home to your home group to talk about this, here's what you did when you approved that last year, I explained that now, like he's bringing up. There should have been a home group to bring this. Our home group chose not to bring it because I'm the agent. Okay, that should not come from the home group of the agents of the anonymi Foundation. It needs to come from another Group. Okay? And here's the other stick, where now we have the three board members that really do want the board members bringing Proposal them? No other courts have got to step up and say, yes, we're willing to put this proposal out that we want to approve this stuff. Okay, what parts

do you want to pull all this stuff without seeing it all. See, you have got dilemmas. It works slowly for a reason. Okay? And people need to understand what we do. This has been in the making for a long time. Okay? We talked about this. Jim Miller originally said he had the Anonymi Foundation registered, and then we found out he didn't do that. So there, we had this dilemma to discuss how we're going to do this here, and then we decided we needed an agent. So I got nominated. I'm the agent and then I brought it back that I need an overseer, so we made a proposal, and that got approved, and we created a board okay to oversee me, so I can't act without going through the conference to the group. It's a process, but if you don't want what you have already out there, and you've seen the results of it after from 1953 to today, we all rejected that or we wouldn't be here. And it gets difficult while we go through this. Okay, you take notice when we're approving an IP, it gets difficult, gets emotional, okay, but we get it right. Now we got them both approved. The last two. We got some other ones approved. It takes time sometimes, but we're not going nowhere in a hurry. We are protected, as Erik said with our copywriting material, even though it's not officially, they've not accepted it there because we didn't have any benefit. But we're still protected. Okay, there's going to be some issues. If Arash gets on here, you're going to get some discussions you're going to have to make. Arash is going to tell you the World Service Office is suing him in Iran. Over what, the translations that are on our web page, called the baby blue basic tax. They have a total Baby Blue in Farsi, and they are taking him to court. I must either be on in that court through zoom or through WhatsApp, as the agent of the Anonymi foundation through our web page. That's going to happen to be discussed here after Arash here in open forum, but I want you to know if you can't get on there, I'm telling you what's going on, because him and I've been communicating back and forth on this issue already. Nebraska is having a problem. We're going to go over that in open forum. You brought it up, what's happening out there. Do we need to do something at the Anonymi foundation to say to that region to cease and desist it's behavior attacking one of our groups. Alright, these are issues coming up now, and we're going to have to go over it's an open forum. So I want you to because when they reported that, listen to what the report was, we're having an issue with with Nebraska region going into institutions telling us we're not NA and and attacking and that. And I'm going to tell you it links directly to NAWA inc. It's their way to go around cause disunity. Try to get emotional issues going, trying to create conflict and fight. Physical fights is what they're trying to promote. Alright, we cannot react in any matter, but what we can do, and we'll go through this a open form. I can be directed to write a letter to cease and desist it's behavior to one of our groups that participate in our conference. We don't want you interfering in outside issues, as your own structure tells you we are an outside issue, simple as that, but these are discussions we're going to have to have today, all right, because these are issues coming up, and I need direction from the groups on how to handle these issues now. I said, there's going to become a time where we're going to

have issues, and I got to be directed. I just can't take action without the group's discussion and saying, yes, you need to send a letter to Nebraska region, a legal document from the Anonymi Foundation, which we're going through all this stuff. We knew it'd be coming someday

Matte,- Just a quick, quick question on that, does the conference have to approve that? Or is that, like, if a group needs...

Bill- that's why we got open forum. I just want you to know it's going to be discussed today. We have got to discuss this.

Discussion on the Anonymi Foundation Summary

Bill- the examples of the bylaws were put there for a reason to show you everything that should be in bylaws. Basically, if we had registered World Service like that, we wouldn't have these problems today. Okay, these were the same things we talked about years ago when we sit around writing literature and stuff, and we said, how are we going to protect this stuff? Well, we thought it would go as Jimmy had put it together, where the trust document World Service changed that trust document, and then they manipulated to make it a membership by World Service office in corporate which they call NAWS inc. today, alright, where they got a super board that they fought for years to get that super board when the fellowship rejected them 100 times.

Shawn- the super board is where the board of directors of the board of trustees were combined, just so people know where that came from

Bill- Yeah, they combined,

Shawn- and the Board of Trustees used to be the protector of the traditions. That was its function. That went away when they...

Bill- So if you put these things in bylaws, and any Group has to write them okay without fearing they come to the conference and they say, this bylaw is out of check. We want it to be amended to fit us. It gets all authority. This way it's in a legal document. When we file it, all the ultimate authority is through the Group and through your conscience and there's no way, it's set in stone that way.

Teresa- and then it protects us from turning into NAWS someday, right?

Shawn- that's exactly it, yes. We're trying to prevent that.

Discussion on changes to the bylaws in the Anonymi Foundation Report

Bill- well, you already had some input. Okay, you're going to have to get the document back up, because you got input where it said, what they say, there is a $\frac{2}{3}$ vote, it should be 80, yeah, that got to be changed to reflect that. Okay, yes, change that right now by getting down agreements with the first year takes 100%. Second year is 80% okay. So, we need to have that reflection. So, people are coming and talking to me. Okay, change that right now by getting down agreements with the first year takes 100%, right? Second year is 80% okay. So, we need to have that reflecting back. Yes. So, people are coming and talking to me. I said you need to bring it up in open forum. We can get the document up, we can make that fit that, about 98% of this came out, right? There is a little bit of things there. Okay, that needs to be tweaked. So, before we send it out, you have that opportunity to tell us what the input was, right now.

Erik- i saw a lot of people writing down notes.

Bill- that's why I say get the document out.

Shawn- so now's the time.

Brian- you can call me anything but late for payday. I've got notes, and very soon to start a zoom platform on Thursdays, and I will inform everybody on how get it out to you. And hopefully, when I can, when you guys see it, you'll send it out to others that aren't informed yet. As to a zoom platform to begin working on some literature and me, I think. We need to start with this is it's not wrecked, it's just got a couple little tweets, as Billy's saying, and I wrote some of them down so we can look at it now see as a person of the Anonymi Foundation and not a specific Group. If we do a literature review, we will not change one word. We will see what it needs, leave it intact. And if we want a revision, we will put it down here below it, so that everyone will get a chance to see what and it's up to the Groups. I understand how to do this. So we will, as an Anonymous Foundation servant. We will not change a word in anything that's written. It's not up to us. Just so you guys know that I understand that. So anyway, can I keep going off of this, or is this the topic and we're going to go to something different? Thanks for listening.

Teresa- I had a question. So we make decisions, and we discuss things at, you know, at this committee, if like, like, what's happening in Iran. Now, if the foundation, it can, is there a way to give the foundation authority for certain things, not authority, not authority. I don't mean it that way, where they can jump in as the foundation and help, like with the Iran situation, not necessarily financially anything, but supporters that just one addict to another addict. How we'll do that. You know, decisions that need to be made interim in between the year. How do we do that?

Brian- decisions can't be made by us, but if you want some input as another addict, we can offer up our understanding. It's still up to the Groups what you choose to do with anything that, from a foundation standpoint, we're not, we will never tell you what to do.

Teresa- I guess what I meant is like, like they were talking about sending the letter to like, the areas where you're having problems, like ours, the master regional can the can the foundation, at a request of a group, do that without it coming here and waiting a year. That's what I meant. I didn't clarify.

Brian- If we help you out, it's still up to your group. Once you take what we offer you, you could do anything.

Teresa- Okay, that makes sense.

Matte- Yeah. I think what she's asking is that, if action is taken on a Group, like legal action is taken on a Group, can the Anonymi Foundation step in, or does it have to come here as like proposal and that, you know, and take that whole process, because in that case, it makes it not even worth it.

Bill- during the year, we have no way of taking action. Okay, we, and I've always said, set up a system that we're putting this out right now today. If any tweaking needs to be done, it needs to come back to the Groups then they need to review it. Someone gotta bring a proposal forward that will not happen until next conference. That's how it works here. I always said, "You know, we do these things. And yet, I talked about this last year. Now you have approved of this, but you didn't create the vehicle.

Eric- So I walked in late. I think you asked the question about immediate action. As of right now, there is no way we do that without a proposal.

Shawn- So I want to make sure the question Theresa was asking, I believe what you were talking about is, like you said, what's happening with Arash? Or something, legal action brought up against a Group. Is there anything? What can that Group do to help

protect itself? Or what is there something we can do to assist that Group trying to get at, because that's time sensitive.

Bill- what I must do, we didn't create that vehicle. All right. I've been talking about this for the last few years. I must come back as Anonymi, I got to report back to the Groups. The Groups got to give me directions, but they didn't create a vehicle, how to take care of things like that. So now they got to create the vehicle, alright? I told them for years this is going to happen, how we deal with it, we can do it with shared experience, how we deal with it. How our Group deals with it, how this group deals with it, and like I told Eric already, I would send a letter, basically tell them to cease and desist their behavior against our Group. It's that simple. You have violated the Twelve Traditions of Narcotics Anonymous. You are attacking a Group which goes against spiritual principles, and I reflect the Traditions in there, what they're doing and the conflict and controversy they're causing. They're causing for addicts that they're going to drive away from the fellowship totally instead, right? You're going to lesson if you're going to rehab, and you're telling them, well, they're not Narcotics Anonymous, okay, what they're going to cause is a division, right? And they mentioned who's going to get hurt is the addict who still suffers.

Teresa- well if we're not NA, we're an outside issue then. Either way shut up, right? We're either an outside issue or we're in a controversy within us. But either way, it violates the tradition, right?

Bill- this is what we do. Are you going to go and tell the rehab, don't let AA in now? We don't believe in their structure. Their structure is not Narcotic Anonymous. When their structure starts doing this, they are mandating, dictating control. And that's where we were putting these folks in, where we're doing this service is that here's what backs us up, and we are Narcotics Anonymous. And anyone that says anything different, that's their issue not ours. You know, are you going to allow us to continue doing this service, cuz that's what we're here for. Alright? But the problem is, you have a lot of people in the fellowship that work in these facilities that cause enough of their own problems in there, and they're going to destroy people being referred to Narcotics Anonymous is what they're going to do in the long run, it destroys their own public image, and that's the problem we're going through. They're going to go into court against us, they're going to do that instead. Just like Arash was up there saying they're taking him to court, but they're not taking the court for literature. They're taking him to court, and he could be executed. People don't understand, yes, and they're talking about Christianity, nowhere in our text. And I would remind them nowhere in our text does it talk about Christianity. It tells you we're not a religious fellowship. We are a spiritual fellowship. Alright? It's a God of your understanding; it's not we don't talk about religion in our fellowship. We talk

about healing our spirits through the Steps, and that's why I'm telling you, if you need help, I'll help you in that area.

Shawn- part of the problem is NAWS compromised our Basic Text when they went into Iran, they made agreements with the government and with the Supreme Leader to change wording according to what they would allow and thus, because NAWS made an outside agreement with the government.

Teresa- Now the government can enforce it too, huh?

Bill- Well, that's what they're doing.

Teresa- Yeah? Because it violates them now too, right?

Shawn- yeah, because they wanted to monitor what was in the book that was going to be printed for Iran and the government and the religious order that's really in charge monitored what was printed in the book that is distributed there. This translation is not that version.

Bill- they did that there negotiating because they booked in the cash cow, and then they smuggled money out of their country. They had it shipped Indonesia, because Indonesia shipped it to World Service. That's what they did. They couldn't ship the money out of their country to World Service, right? So, they found a way around, but that what we're dealing with Arash,

Shawn- yes, but that's why there's a problem there for us.

Matte- I got one more thing that I saw on this that I understand what it's saying, but I think it might need worded a little bit different to make it clear, but it says, just as each Home Group is autonomous, so too is the Anonymi Foundation.

Bill- we're not. The Anonymi Foundation is not autonomous. We're directly accountable.

Matte- it seemed like it was talking about outside of NA.

Bill- still we're not autonomous.

Shawn- yeah, just talking about the foundation being autonomous from the government and government interference and regulatory stuff.

Matte- That's what I thought that it just needed clarification.

Bill- well how are you going to clarify it?

Matte- I don't know.

Bill- well clarify it.

Matte- I saw that it was an issue I don't know how to clarify it. It seems to me that it's saying that it's autonomous from government entities.

Eric- Okay so, it says the PMA framework allows us to operate under common law, outside of government interference or regarding burdens just as... Okay. So, let's if we remove just as each Home Group is autonomous. Just as each actually, just as each Home Group is outside of government control, so too is the Anonymi Foundation. That would fix it.

Brian- we don't need to edit it right here.

Shawn- we can. Because this is just a proposal right now anyway.

Eric- it would be good to have it before...

Bill- this is not a proposal.

Shawn- not yet.

Bill- right, the Groups got to make it a proposal.

Brian- since we are editing it...instead of "We are not incorporated" should be "the PMA is not incorporated", there.

Teresa- correct me if I'm wrong. So, the article for the Corporation are the vehicle that sets the rules. So should it not say "will not" if we're thinking future instead of "does not", because that's moving forward 10 years down the road, whoever's that if we say, will not, that's the rules, does not, says, right now we're not.

Shawn- i think it's more directly "will not"

Eric- i like "will not" better

Daniel- "will not" adds direction from the Groups to the Anonymi Foundation specifically.

Erik- do I change it to "will not"?

Mickey- each Group should be autonomous except in matters... I'm not sure why we changed that but should...each Group is autonomous. You don't want "should" in there.

Bill- Yes, each Group is autonomous.

Mickey- and then when you come down to the third line in there, we keep trying to change it says, just as each Group is outside of government control, so too is the amount of my foundation, that is an untrue statement. Any organization is under government control. If you don't think so, until they give you a lawsuit, or you end up in court you are under government control. The way we had it before each group is autonomous. Take the "just as" out and say each Home Group is autonomous however, the Anonymi Foundation is directly responsible to the Group. That's kind of like what the Traditions say, right? Yeah, so take out "just as" and say each Group is autonomous period, period, and then put a period, each group is autonomous period, and then the Anonymi Foundation is directly responsible to the Groups.

Matte- My question here is, I think that paragraph isn't talking about the Anonymi Foundation's relationship to the Groups, it is talking about its relationship to the government. Is the way it comes across, because outside the PMA framework allows us to operate under common law, outside of government interference or regulatory burdens. So I was trying to, it was saying that it, it was a true statement. But it was, I was thinking that it needed reworded so that it didn't sound like it is autonomous from the Groups. It's talking about being autonomous in the like, outside of NA, in a legal or in relation to the government.

Eric- what if we just eliminate the sentence? It might work better.

Matte- problem solved.

Erik- but basically it says, in a way, the PMA is autonomous in the government.

Shawn- Well, it says it's under common law outside of government interference with regulatory burdens. So that is basically what that says. Actually, it says it's independent from the government.

Mickey- if you look at the fourth and ninth tradition, and the reason we got into such a fight since because the fourth and ninth tradition stated, Groups are autonomous. The

service structure isn't going to add something in there. Say the foundation. The PMA Foundation, is outside of Narcotics Anonymous and serves the Groups. Kind of like the fourth tradition says, What about our service officers? What about our structure? They're here to serve NA, but they are not NA. They're here to serve us. Pull out the baby blue I hear you talk about that shit all the time.

Bill- this issue here that we're talking about is the PMA itself, okay, and why the PMA is because what Shawn said, it keeps us from over regulation from the government. Okay? We're not having to file taxes. Okay? It gives us freedom for the fellowship to have freedom in that area, okay, why choose the PMA instead of filing like the rest of NA with these nonprofits that actually tie us into the government.

Brian- maybe, if we take it out and put it below the legal independence under there, see that's governmental and then this is, that statement underneath that would be the part of, it's part of, would be separating it from the government, would be talking about the Groups that pull it out, put it right below the legal independence here.

Erik- I can do that.

Matte- if we go back to the original sentence and it says so too, is the Anonymi Foundation autonomous, and then and add something to it to clarify what it's talking about being autonomous, or how it's autonomous.

Shawn- but the Anonymi Foundation isn't autonomous

Bill- No, it's not. It's directly responsible to the Groups

Matte- exactly, but that's not what it's talking about.

Shawn- yes, that's why there's confusion.

Bill- I think we should just remove that.

Matte- it causes more confusion than it clarifies.

Erik- is there any more notes?

Brian- number 5. Nevermind number six. There's that word, ruler that is not a nice word. The Groups remain free and the structure remains humble. The structure is not a

physical entity, and it cannot be humble. We need to use a different word there, humble does not work. It needs to be non constrictive.

Shawn- The structure remains of service.

Bill- just take not a ruler out it doesn't have to be there.

Brian- oh done wow, nice.

Erik- Brian's stating that structure remains humble as it's not a...

Shawn- right, structures can't be humble.

Daniel- subservient is the better, if you were to round the words off, remain subservient.

Teresa- nowhere in these articles is the Group defined. I'm just thinking nefariously, only because I pulled a coup once before. Not, not ruling over the Groups, but what determines what Groups are part of, yeah, this foundation here, because if I wanted to get rid of this, I could from outside, if there's no definition, me and a whole bunch of other groups could join here. You don't have any rules about how I can join, and then I got full voting, I pulled a coup before.

Erik- this is something probably for the bylaws. But it does say over here in the bylaws, when we go over that we have to define it.

Teresa- I'm saying, am I a Home Group member of this because I say I am, or is there criteria right? Me and five people can start meetings and I can say I'm a member,

Bill- here's the problem you're talking about the dilemma Greg Pierce always talked about, okay, what defines a member? And then he talked about a member called the participatorial member alright, if you gotta join a Home Group, okay, we don't want obstacles there for you to join that Home Group. But the Home Group, yes, there's going to be responsibilities and a probability to being a member, alright, but the Home Group should define that for you, okay, all right, but we don't want to create obstacles for you to become a member. That's why we don't have requirements. But we tell you, the minute you join a Home Group, for you to chair, you have to have this much clean time. You gotta have this much clean time going to some institutions that plus H&I some institutions tell you you had to be out of prison for five years before they let you come back.

Teresa- so to be a Home Group that directs this foundation, then I'm assuming they would use the Gray Book or something, right, right?

Bill- Here's what we believe. I'll be real honest with you. People that are trying to work the other structure don't work real well here. They got to get to a point where they say, I had enough of that, I'm going to participate. It was just going to do these things because we feel included, that's why we do that. We don't like to see obstacles, though, for people that are caught in that there bridge, there's so many of them caught in that bridge, and they don't let go, and we don't want to exclude them from being here.

Brian- our Twelfth and Third Traditions don't allow that.

Daniel- So then to re clarify her concern, what would prevent a group of Groups from winning majority at this conference?

Bill- because of 100%

Daniel- but what if they continue to return?

Bill- it doesn't turn out that way.

Shawn- it's been tried before.

Matte- the very first one that we highlighted, do we want to remove that sentence altogether?

Bill- just remove it.

Erik- So Brian has Article Three. So here is something explained about the membership.

Brian- the Anonymi Foundation shall take no action. Full stop, done. We don't that infringement. It doesn't have to infringe. We don't. We don't recommend. We don't nothing. Zero. So that's shall take no action, period, stop, unless directed by the...

Bill- semi colon

Matte- I'm pretty sure there are other articles that define that. What you're talking about about, taking action. This is talking about on the autonomy of Groups. So basically it's

saying that it can't even be directed to infringe on the autonomy of the Groups, is the way I take it.

Bill- semi colon, unless directed by Home Groups.

Matte- So you're saying that the Groups could vote to infringe on other Groups. Because that's what that would do. That would be a violation of the Traditions. So that article made sense to me that the Anonymi Foundation will not take any action infringing on the autonomy of other Groups.

Brian- okay, now I can see that.

Matte- it talks about later, about it has to be directed by the voting process of the Groups.

Bill- yeah, that's in there.

Brian- and instead of the word guidance, the foundation is to provide support, not guidance, but experience. Don't change it just.. . guidance is, not a bad word but I don't know.

Erik- I have a question about this one. 2.2 The members of the Anonymi Foundation are the Home Groups who align themselves with the Twelve Traditions and express a desire to participate in this structure, or is it they are registered with this structure?

Bill- What are you talking about?

Erik- the Groups.

Bill- all Groups that are registered are part of the FSC. The Anonymi Foundation is an arm of the FSC.

Erik- so if a Group is registered, then it's a member of , or if the Group has a desire then it's a member.

Bill- let me get this squared away. The Anonymi Foundation itself is an arm of the FSC created by the Groups. The Groups register online on our webpage nahelp.org, to be a member of the fellowship service conference. They're not a member of the Anonymi Foundation. That's what I want people to understand. This is wrong when it states a

member of the Anonymi Foundation. We are an arm of the FSC created by the Groups that have registered with the FSC.

Erik- so this one is not correct then.

Brian- just highlight it and we'll play with it.

Matte- you could almost say the members of Narcotics Anonymous or maybe the members of the Fellowship Service Conference?

Bill- you're a member of a Home Group, okay, but it's the Groups that created the conference. Okay, you will have you're not the members the Anonymi Foundation. I am the elected agent. We get a board there that's an arm of this.

Daniel- oh, I see what he's saying. The way it's written is the way that he's describing it. The members are the Home Groups.

Bill- Yes

Erik- so I highlighted it, we can come back to it.

Daniel- maybe the confusion is because the end doesn't clarify that the spiritual structure in question is the FSC. So if we put the FSC, then maybe it's clear. It would read Home Groups who align themselves with the 12 traditions and express a desire to participate in the FSC.

Bill- right.

Matte- I have a question. Yeah, so. But so does a member who is not a member of a Home Group have protection by the Anonymi Foundation or...

Shawn- yes.

Bill- if you are a member of Narcotics Anonymous at this conference, they don't have voting power though. Like Brian does not have voting power. David doesn't have voting power. David here doesn't have voting power because his Group decides but they still want to be here. We don't exclude them. We don't exclude them in open forum. We don't include them from asking questions. Okay, we're open in that area.

Daniel- but will the Anonymi Foundation protect those members?

Shawn- I was trying to get back to her, including, like you said, our other members, our non voting members. They still shouldn't be excluded from protection under the Anonymi Foundation.

Bill- they're not excluded from protection.

Shawn- hold on, my thought was, and it might not be right, but reading it, the members of the Anonymi Foundation are our Home Groups, could it also say and members? So we just add "members" so that it's inclusive. So we aren't excluding.

Bill- you could do that.

Matte- you still have a problem of it saying the Anonymi Foundation, because it because what you're saying, what we're talking about right now, is different than what this article saying, because this is trying to clarify, basically the voting Groups that direct the Anonymi Foundation through the FSC. I think it's talking about two different things because it's not, I don't think it's really supposed to be talking about directing the Anonymi Foundation right here, but also it's talking about Anonymi Foundation membership.

Erik- So in the Netherlands, if you if you started an association, the member, each member has voting power, so you have to define what is a member.

Bill- right, you have to be a member of a Home Group.

Erik- the Home Group gets one vote. The Home Group is one member of the association. So not everybody here, people without a Home Group, can be a member in that sense, because, yeah, they're non voting member

Shawn- but they should still be included in..

Erik- but by law the Membership Association, each member has a vote. You can't say that everyone here is a member, because that would make everybody have a vote.

Brian- so let's try this, we don't have to change anything, the Anonymi Foundation are the Groups, individual members are under the auspice of the FSC. Done, we don't have to change anything.

Matte- my question is, does the Anonymi Foundation have members?

Bill- no

Matte- then why are we defining members of the Anonymi Foundation?

Erik- I think we need to find an association that has members defined by the law to direct. In the Netherlands, it is like that, yeah, Europe...

Bill- but the foundation here is an arm of the FSC.

Teresa- is there a way we could put that in legal words, to put it in here, to just make it clear? I mean, if we just make that, we don't need half of this stuff.

Erik- let's leave it highlighted.

Matte- just leave it highlighted because I don't think we are capable of dealing with it at this moment.

Bill- we'll get it right.

Brian- and then article number, this non dictation. Seven, autonomy, cooperation and nondictatorship. In other words, they don't take notes. We need to clarify that non dictation. We need to rule, decide, dictate or censor is what's in the basic text. So...Non dictation means I'm not going to take notes.

Matte- yeah dictation

Bill- dictation itself is taking notes.

Brian- can we clear that up?

Daniel- I know what they're trying to say.

Brian- how about non dictating?

Matte- i think non dictating would work.

Shawn- non dictating works by definition.

Brian- so 11.2. We spoke that the foundation focuses off entirely on what the Groups tell it to do, but we have to keep in mind...

Tyrone- by the Groups through the 12 traditions?

Shawn- I get it, yeah, I mean the answer is, though

Erik- so this is for the government, for not for the government, but for the outside. So we have our business. We have a purpose, and if we divert from it, we can get in trouble. Do we start organizing other, you know, stuff that's not focused on recovery from addiction, then we're heading for trouble. That's how an association meets the purpose. If you divert from it, you know? And that's what happens if you do not focus on...

Matte- yeah this is dealing with external, outside of NA, it's just preventing it from doing something other than what it's being created to do.

It was decided to take a 15 minute break before moving forward with the rest of Open Forum

Reopened with Serenity Prayer

Erik- does anyone have anything to add on the legalization of the Anonymi Foundation or can we move forward?

Matte- maybe after we get done with open forum, anyone that wants to participate we could flow read it, and like we were talking about if we read the whole thing together, like one article isn't going to say everything. So it might be good to go through it like that, do a flow read and see what sticks out.

Erik- so is there anyone with stuff to talk about?

Discussion on copyrights and trademarks

Teresa- I just have a general question. Do we have to trademark the, when it comes to we have to trademark the Anonymi Foundation, the name or no?

Brian- well, copyright rather than trademark

Teresa- in Ohio? Well, they're two different things. That's why I didn't know in Ohio, the name is is separate. And then it's like, in Ohio, you have to have register or trademark the name. It's separate from business registration. And then you have to do it across the country, but maybe PA is your Commonwealth, so it's different. I don't know how common laws are. I just wonder if we had to, oh, is that what it is?

Discussion about the Anonymi Foundation Report and the Groups having to direct the conference. The Anonymi Agent Reported his research to the Groups and now the Groups have to tell us what to do from here.

Brian- I heard the word slow. We were talking about our our process is slow and sometimes frustrated, you know what? And this is just a statement that don't need discussion. Slowness is all up to the Group, full stop. It's got nothing to do with us. So a question about PMA, will, will that answer? That function be allowed to do legal copyrights?

Bill- yes.

Brian- okay, this one I need to be careful with, and I'm not singling you out, but that position of agent, and was sent to me, not you, Billy district was sent to the agent. A question is, have you kept the board? Does the board know everything that you know about this? Because you could be dead in eight seconds. I hope you live another 25 years. Have you been sharing the information you've been gathering with someone else for in case somebody...

Bill- they helped me formulate this.

Brian- okay, so there's people up to speed?

Bill- yes they're up to speed.

Brian- it would be nice to see a little noise about this as we're moving along. You know, like y'all come up with a little something, putting it in an email, putting it in a putting some information in the magazine, putting something on radio free so that we can, we all can get a little bit of light onto things we don't see. Is that possible?

Bill- the whole issue is, I had to bring it here first. Okay, alright, that's my direction to get this information put together. Get a report put together. This is the report now, and this will be disseminated in all them different avenues now.

Brian- so can we have an update or at all during the year about where we are?

Bill- well, I hope your know we're moving along now. I know it's, I know it's a shock to everyone that's not been in the circle, alright, but to collect the information, disseminate the information amongst ourselves. First of all, then the formulated presentation..

Brian- I see a lot more than last year. A lot more. So thanks everybody.

Bill- it's a lot more. Yeah, it's a lot more. And then with my car accident last November, the 24th I'm lucky I had help to be able to put this together at all, because I've been in therapy for a brain injury. I've actually grown a lot since then, but it's like I got short term memory loss that are like I leave a phone in the airport in Netherlands, and don't, you know where it went.

Teresa- I was just going to clarify. In order to continue moving forward next year, there needs to be a motion, right?

Bill- There need to be a proposal coming from the Groups after we presenting it here. Now we're going to fine tune it and look at it so we can send it out to the Groups. And then put like he's saying, we need this is where we're at, this is what we're doing. We need a proposal to come back. We need this stuff approved, and we need to look at what happens in an emergency situation. Groups got to come up with that there and also that's a dilemma we get put in at times. Yes, we can see the dilemma. I know the dilemmas there, and I can't take action. And just like last year's conference, when I said, Now we approved this. Now what's the vehicle to move it? I didn't think it was going to get approved on a first year motion. Seriously I didn't then you just come out, come here. Everything gets approved. I'm like, Okay, now we did it. Now move, yeah, see, I figured they'd come back in that first year and say we're not approving this because there is no way to fulfill it.

Shawn- you were close enough last year for us to move, yes.

Bill- and now I realize, as a, you know, the initiating Group and being the the Anonymi Foundation agent, it shouldn't come from my Group, or any members of the new board we established. So now we need a Group to take action, that's all.

Matte- so I guess we do. We should have some discussion on those emergency situations where a Group needs assistance, as far as if there's legal action taken against them for copyrights or trademarks or whatever, but the Anonymi agent can represent them in court or be involved in that, in that process, I guess. I mean, really, that's, that's what that is created to do.

Bill- right, because the only thing that's been established, okay, is that I got a report back if I'm called upon, but there's no vehicle for me to take action, right, on their behalf.

Brian- not on behalf of we can encourage. We can show up in court and sit there with you and share ideas and experiences, but we can't represent any Group.

Bill- well, that's what happened, okay, and that's something what I talk about. We approve stuff. Okay, now we have it. Now, how do I take action when I get the report? Report says I gotta send it back to the Groups. It fits directly on that access,

Brian- I guess the next thing is how can we get around that without superseding the Groups?

Bill- we can't.

Shawn- there has to be an exception and having exceptions is dangerous.

Matte- my thing is, the whole purpose of creating this is for the Groups to be protected, and if the agent can't protect them what's the point?

Discussion on how the Groups can communicate to direct the Agent

Bill- well that's what I've been..how do I take action? If you didn't set the vehicle up for me to take action? I can report back to you. Are you willing to convene on Zoom, okay, to direct me? See, that's the thing that gotta happen, because it's the situation where they're being persecuted right now, right? And they bring this to my attention. Can you create a vehicle that I can get all the Groups on Zoom? To get the right to know how to move forward immediately, like an emergency meeting. That's what we gotta look at, okay.

Brian- which would not be that difficult, except that we don't have one communication point that will go to everybody. So we need a communication point and we don't have one and I don't know how to get one either. So, that is frustrating to me.

Bill- there you gotta make a commitment first. This way we're going to communicate. Okay, we've been committed. A lot of us communicated through radio free. I watched one. I'm not there much but I know what's going on there. Yeah, if I see something that's a question that needs to be answered, like they don't. Because I got so much with this year with my brain injury that I couldn't get to the computer and look at and say, okay, so then the computer starts bouncing. Now, what do I do?

Brian- where do we have a single point of communication for everyone? We can still use all the other avenues. But we need one and don't ask me...

Josh- among some of the groups that I've worked with and some of the efforts that I work on, we've had quite a bit of success, designated some some app of your choosing, for us it's been signal, which is very private, and just do that there. We sometimes communicate with WhatsApp. I personally can't follow radio free, there's just too much going on. We have had some success of creating a single group within some app and letting members know information or you need to communicate something. Signal, in particular, will also facilitate calls, video calls.

Brian- are you willing to look into that for us? Other than what you just said?

Josh- I'm happy to do anything to get people on board with that as far as the technology goes.

Brian- So now the question on that is, we have all these avenues for communicating. How do we get to get to all the people in South Africa? How do we get to the people in Iran to give them the information that we're going to use. Russia? Do we have someone we we have a contact email for everybody in South Africa?

Bill- we got our person in South Africa yes, we got three of them over there.

Brian- so we and we got a Arash, and some a few others, and that would disseminate that information to anybody that needs it?

Bill- most of them are on radio free or they're on Whatsapp.

Josh- you just need some you need some channel for everybody. If it's for everybody, then it is going to have to be international. So, well, international, Telegram, WhatsApp, these are the ones.

Bill- WhatsApp is used worldwide, Signal is not. In Iran they can't use Signal. In different countries they won't let you use it. In Iran he's on Whatsapp. Their government can look at Whatsapp. Signal they can't look at so they don't allow it. We don't have anything to hide from anyone. I created an FSC Whatsapp, I gotta add everyone into it though.

Brian- Do we have to ask permission from the Groups to to utilize a WhatsApp? We take liberties here without asking, we're asking for trouble right?

Bill- well basically we've doing for years communicating through radio free but we didn't make it our official channel.

Mickey- Yes, everything we're doing, but if you're talking about using another form of communication, you're going to email. But if you use WhatsApp, you have to ask every person who's doing it and every Group who's doing it to join, you have to conscience it to go on. So the only Groups that would go on to WhatsApp are Groups that conscience it. So they would conscience it. I joined. Their Group conscience would be I joined. And if your Group conscience is I don't want to use WhatsApp, don't join. So the active joining would be Group Conscience. So that would be good.

Brian- but how do we get that vehicle started?

Discussion on how the Groups can be protected by the Anonymi Agent

Matte- Alright, so here's my I guess here's my question. Is it, is it necessary for if legal action is being taken against a Group and they need to be protected by the Anonymi agent? Is it necessary for the Groups to decide whether they can do that or not?

Bill- I gotta report back to the group. Yeah. First of all, I gotta tell them the situation. They gotta direct me on how to handle it. Yeah, okay, that's what they approve, okay, but what we didn't say is, time frame anything like that. Do I gotta wait a year or what?

Matte- but if that's the case then we might as well not even have it.

Teresa- But it doesn't say we can't do it more frequently in a year, right? So then if all the Groups agree in a message, right? If he sends it out and says, This Is everybody okay with us dealing it, then can't vote be taken. Then, if they went to their Group conscience, and then every person's in on that chat, we go back, we talk to our Groups, hey, they need us to do this. Can't that happen in like, a whatsapp or whatever?

Matte- but I guess my thing is like if someone is subpoenaed to court. I mean, like, it's going to be, like, time sensitive. And then, and also, this is being set up to protect those people. So if, if they can't be protected. I mean...

Teresa- and once we have a worldwide copyright, then I can imagine, when they sue the Group, they would have to sue the Anonymi Foundation, because we'd be the copyright holder that's infringing on their copyright. At any time, if NAWs has a copyright, let's say in Iran, I'm just making that up and guessing here, they could say we're violating it in Iran, right? And if the if we had the copyright, if the Anonymi Foundation was a copyright holder, instead of, as we have it now, there's really nobody, it belongs to the group, come to sue us all, then could the Anonymi Foundation? Because we have a presence in Iran. Do you see what, well, FSC does, which is directed, there's a relationship there that I'm just wondering.

Daniel- So as far as I understand the purpose of the FSC and the establishment of the Anonymi Foundation is to avoid becoming similar to NAWs Incorporated. NAWs incorporated has its way around this issue. If you want to turn it that way, it was their third concept. It says the NA group delegates to the service structure the authority necessary to fulfill the responsibilities assigned to it. So what we're asking is, what is. Does this body of groups want to assign to the delegate in question? Because NAWs said, just let the agent be autonomous. And the agent is saying, Don't let me be autonomous.

Matte- but can we define the actions, the protections that can be in place for members and Groups?

Daniel- a motion has to be established, some kind of direction has to be given. The second thing I wanted to address is, once the vehicle has established the nature of or service of the delegate, the delegate's responsibility to coordinate can vary, like other people brought up. I've worked in the past with service structures, where I determine how often we met. I meet every single weekend for policy in our local area. So based on the directive of the Groups, once the vehicles in place and we have those things established, the delegate can decide whether there's a weekly well the Groups should decide that the delegate decides how often there might be a meeting or a signal group, or however they want to do it, so that there could be like Brian was asking for a regular update if it happens Once a week, twice a week, or twice a month, once a month, once a quarter. But the Group, the vehicle has to be established to carry that motion, and it has to be defined clearly enough so that he can move because he cannot move until..

Shawn- so just real quick, a little history regarding the only once a year. Now, when I first started coming here, we met more than once a year, twice a year. We got together twice a year. We used to get together in the fall out in Ohio, typically a literature review, whatever we think the Group that we're hosting had decided to do, but it gave us another opportunity to get members of this conference together more than once a year, and now things could be updated in between then.

Bill- Jim's Group disbanded that and we never picked it back up.

Shawn- if the Groups decide to throw something, we can get together more than once a year. That's just food for thought.

Matte- I was just gonna say, All right, so like the Groups, it is an approved motion for the Groups, copyright protect the literature and trademarks. So we have an agent. So what is the purpose of the agent? Right now, the purpose of the foundation is to protect. So the agent would be to help protect. I mean, if action is taken on a Group regarding copyrights and trademarks wouldn't it be the job of the agent to...

Bill- my responsibility, yes, is to respond to that. But if they're taking legal action against the Group, I got to respond quickly, yes, and I have to report back to the Group, but what's the vehicle we're going to use to get directions from the Group? Because they cannot just say we're not going to take our responsibility. I need clarification. I gotta do the research. I gotta find out what is going to happen if we gotta, if I gotta fly, if we file the case, say, in Oklahoma, it means I gotta go to Oklahoma. Is what has to happen, okay? I gotta go there as the Anonymi Foundation agent, and I gotta file the paperwork, representation of the Group that they are trying to take action, that they cannot take action. My first action would be that the action is out of order because the Group is a member of the fellowship service conference, and I'm the arm to protect that Group, so I would have to file an action in that court that is out of order at this point is to move forward, and then they'd have to reconsider it to court if they're going to take on that case, if you're going to take that case, they need to refile against Anonymi Foundation instead. See, that's the first option. If you understand the court system. See, I understand the court system.

Teresa- so you can't ask them to wait until July after we have the conference?

Bill- No you can't do that, it would be the closest Federal District where it would get filed. Anything with copyrights have to be filed in the federal district court. Okay, so it's in Oklahoma I mean, if it's in Nebraska, what's the closest Federal District? It's where they have to file it, right? Okay, I might be able to, since we're the Anonymi Foundation, I

might be able to get everything transferred into Philadelphia instead, that's what I would do. I want it in the third district. Okay, I'd want them to have to take action in third district, because that's where the Anonymi Foundation is at. You are not suing that Group, you're suing the Anonymi Foundation. Then I could get it transferred to Philadelphia and force that region of Nebraska to have to come up here.

Shawn- and that would open up a whole good can of worms for us.

Brian- so if they took action on the Group they would not have standing?

Bill- they would not have standing. That's what I would file that they don't have standing in that court district they would have to file against the Anonymi Foundation which is in the third district.

Teresa- it's like suing an employee, you gotta sue the company.

Bill- right.

Brian- is there a way that we can make this vehicle that would be in accordance with everything that we need to have, not just the 12 traditions, but all the Groups direction. Is there a way to do that?

Bill- well, what I can. I can write a new report, basically to the Group, and I can write this is what you have. You have elected me as your agent. Here's the responsibility of the agent. And now we have Groups that may need our services. I gotta report directly to the doesn't say report to the conference. It tells me report directly to the Groups. Yes, I can report directly to the Groups. This is the issue now, I, I'm I'm getting reports from Iran, I'm getting reports from Nebraska. I I'm going to report that now, okay, I will have that put together within a week. I will send it directly to the Groups, because that's the mandate they gave me. Okay, I'll sit down with the board members. I'll go over it with the board members and tell them here's the action that I want to take. They will say, let's take it and we'll send it directly to the Groups, that we can do okay? And then we can think the group's gotta get into conscience and then give us direction on how they want me to proceed. I don't know what the cost would entail in Philadelphia. If it gets to Philadelphia, it's not going to cost me anything to go down. It's going to cost paperwork, that's what it's going to cost.

Daniel- Okay, so I think the challenge still comes to the need for expediency. How do we expedite a clear Group conscience on behalf of the Anonymi agent?

Bill- Well, when I report to the Groups, the Groups have to direct me, simple, that's what it says. So it can be in however Groups do their emergency Group conscience. They can do that. The Groups can do that already.

Brian- so here's another dilemma of mine. How many Groups have decided to stand here with us? So we got us. There's three in Russia?

Bill- 9 Home Groups in the Netherlands, we got 2 Home Groups in the UK, we got one Group in South Africa.

Brian- Iran we got 26 of the 31 areas well...

Bill- I will find out by reporting to them. I did a big conference call with the Iranian Fellowship, I actually debated the World Board on there. And humiliated them.

Brian- so is it the 80% to move then or 100?

Bill- all it says is the Groups gotta direct me. I will report to the Groups, the Groups gotta direct me, that's what it says.

Daniel- but how do we know if we have a clear Group conscience? How many Groups...

Bill- how many Groups are here today? It's who participates.

Matte- Basically if you don't participate you forfeit your voice. I mean a proposal could be made defining what the agent can do in those situations. It could lay it out, like under these circumstances, you know, the agent can act.

Brian- and it would have to be real specific.

Bill- Well, at this point, I got a report back to the Groups, what the Nebraska Group brought here. I gotta be what Arash said on the call here. I gotta report that directly. That's my responsibility now. I've been given a responsibility by this conference, through the Groups on I need to report back if I if it brought to me, which you saw it brought here. It was brought here in front before the Groups, right here already. Alright, so I got so now I'm right at this conference. There's seven groups, and there's other members that are here that heard these here. I need to report to the rest of the Groups that aren't here. Okay, alright, I gotta seek direction at this moment, and then you will give me the direction on how to handle this situation. I need to evaluate on the first action if they file.

They didn't file yet in Nebraska, but they are harassing them now, when I ask, Can I send a letter out to that region and ask them to cease and desist their attack on our Group?

Teresa- So basically, since as a registered agent, you have an understanding of what options you what you can do in those entities. So then you would come. To us and say, These are the things that we can do. We can't really ask, because you know that that link right, and these are the options we have to do these things.

Bill- what I would do immediately is the Groups give me the direction to take action. My first action would be a letter to the nearest court. Okay, first to the region and tell them to cease and desist, because it's going to end up in a federal lawsuit, right? And if you want to pursue this here, okay, I am the representative. I'm the per se attorney for the fellowship service conference and Nebraska, Anonymi, fellowship service conference, Group, right? That you are taking action against the conference and the Anonymi Foundation, that's where your action belongs. Then it comes to Philadelphia, where I can represent that Group. There, the Group doesn't even have to be present. I know I can get the judge to zoom them in, okay, without a problem, and let them testify on Zoom, from network that I know can happen in the court of law. Okay, here's the action, here's what's going on and what regards to what do we want out of we want them to cease and desist their behavior and not cause division in the fellowship Narcotics Anonymous, that who gets hurt is the addict that still suffers, our interest is to protect the addict that still suffers and our Home Group's interest that's doing H&I and PI work.

Brian- so what's the time frame for the Groups to respond?

Bill- they should be able to have an emergency Group conscience immediately because it's an immediate action being taken on a Group from our conference being attacked right now. I can report that back right now, that I can do. That's within the bounds of the agent, the board is sitting here listening to what I'm saying. If I'm out of line they can tell me that I'm out of line. My responsibility here is to report. I was given that by the conscience of the Groups that set this process in action. And I will put ASAP. It's not yesterday, right? Immediate relief. Okay, they're in need of immediate relief. They're under attack right now, and if one of your Groups could be under that attack, you'd expect that same service being provided for you. It's not going to cost hardly anything for me to write a letter, get it to a notary, have it notarized, and send them a certified mail, right? Okay, I find out who the people on that region, for every one of them to get served. Okay, that's what would happen, and then they're going to meet at the region immediately, because now they got a problem they can serve. They've been served by the agent, not the Group itself. The Group will be advised not to take any letters from

them that it needs to come through their agent instead. Then they know it's illegal. It's a legal issue now. And then that region will contact World Service and they will say back off, okay? You don't want to go to Philadelphia, okay?

Brian- this ASAP is not a definitive enough answer for me.

Bill- well what can I do Brian? Besides that?

Matte- an issue where it would be very time sensitive, I think, is if, if a Group was subpoenaed to, like to go to court?

Bill- well, Arash is.

Matte- he's already been to court.

Bill- He's gotta go back to court, okay? I don't know what type of relief we can give them at this moment. They are a standing of this conference. They report here every year, every year for the last few years, okay? They've been translating. We host their translations on our website. It affects us as nahelp.org which is the website of this conference. Okay, so if we are hosting Iran's Farsi page on our website, we give them access to our website. They go through our webmaster to post the stuff up there. So it does directly affect us here, what's going on in Iran right now? So I'm going to put this the need and please get back. I will say, please get back to me within 10 days at the most. That I can ask. I'm not directing, I'm asking. It's a request. It's immediate action that we gotta look at right now. This Group report it to our conference, in front of everybody here. We got the recording, okay, we can send that recording out with it, we can put that recording with it so they know that was recorded here, and we got the we got it recorded on our tape here of the Nebraska Group's report on this action. So that may not be as immediate, but it is immediate because they're dealing with it, and they're going to their rehabilitation centers where they're putting Gray Books in right now, trying to get the Gray Books kicked out, alright, trying to get them kicked out of doing H and I in that facility. And that harms us as a whole. It harms the addict that still suffers. So it is an immediate thing, so I'm going to put them both together. Somebody has to understand that this stuff is directly affecting us as a whole. It's affecting addicts from finding recovery, and it's affecting this conference, and its web page access, Iran could decide they're going to take up the World Court over this. Is that a good solution?

Brian- for right now..

Bill- Erik before you go home, we'll have this put together. We'll get it out to Shawn. We'll get it there, okay, all right, and then we'll get it out. Okay. So when the conference is over, our conference ain't over.

Erik- this is good so this also lets the Groups see the necessity for creating a vehicle.

Bill- then I'm going to ask them can you please come with proposals on how to correct this here? We need to get this process established, we need proposals to approve the board stuff, to get it registered. This is the work we've done this is the total report, but now we've got these other things added in.

Discussion on Arash's case in Iran

Matte- did Arash say when he goes to court again? He said he went today.

Bill- No, I don't know what he did today. I don't know if he's talking yesterday when he says today. Remember, it's later in the day, it is Friday. He could have been in court today, but I know he's not going tomorrow. I don't think he was there today. It's Saturday, and the Muslims are like, Jewish, their Sabbath was Saturday. They're traveling yesterday. Others, yeah, so, huh, Friday, Friday, yeah, but it goes into Saturday, doesn't it? Or Friday goes into Saturday.

Mickey- Muslim is Friday, Jewish is Saturday and Christian is Sunday.

Teresa- I just had a question, what? Just because I don't know the meaning, is different in Iran, when he says they're suing him, is it like in the US, they're suing them for monetary?

Bill- no they're suing to hang him.

Daniel- he's being viewed as a religious criminal.

Bill- right. Also it's World Service going in there, because of our Basic Text, we don't know what is actually in there, but the Ayatollah are the ones that approved that book. Yes, our Basic Text had to go before the Ayatollah and he put it through his religious people to approve the Basic Text, how they amended it to fit their religion, we don't know.

Teresa- so NAWS is willing to over whatever principle to get an addict executed.

Bill- yes, of course.

Teresa- or atleast some sort of criminal something..

Bill- he could be in prison for life..

Shawn- prior to NA going into Iran they didn't treat addicts, they just shot them.

Daniel- So I can't speak on behalf of NAWS because, well, I've never talked to Anthony or any of them, let alone know, but because of the way that they've manipulated the wording and the structure, their defense of our literature is their objective. But truly they gain profit by having control over the literature. So the reason that they open the court case isn't because they want an addict to die, or at least that's what they're going to say. They're going to tell you that they're defending the literature. They might know what they're going to even if it costs, Arash his life. It's in defense of the fellowships literature, because they're the ones defending the incorporation of Narcotic Anonymous, World Service.

Bill- you gotta remember, we're dealing with a corporation that doesn't go to the fellowship and ask for direction. This right here tells you that we don't have any power. It's the Groups who got the power the way it was supposed to be by Jimme and by Greg wrote the structure. Greg set up models, but it's never, ever materialized at the World Service Conference.

Shawn- they said they couldn't run their business that way.

Bill- what we've been doing here for years is setting up the model like Greg gave us, and now we're putting further in action by what we're writing, what we're putting together and getting that established, getting it filed as a PMA instead. We are in the basement here. We are not at the top of the system.

More discussion on the bylaws for the Anonymi Foundation and Groups needing to bring proposals before putting them into place

Daniel- So I've been with this conference now for a number of years, consistently. And I want to point out one thing that the GSRs need to take back to their Groups about proposing a motion that's going to come to the next FSC to direct the emergency assembly of the Anonymi Foundation and its agencies. It has to be clear and concise. As soon as this body has ever moved to make large edits, there's been a bunch of

chaos, and then the wording keeps going back and going back, going back. It has to be clear and concise to pass in one year. If you want the Anonymi Foundation to be ratified quickly, it has to be short and it has to be sweet.

Teresa- So is there anything preventing us from, like, I think somebody said this, having, like, a working document, and then any Groups that want to participate in that editing process, so that we kind of already come here next year with a good idea of what's already there, versus one Group writing it and then presenting it?

Daniel- the Groups have full autonomy

Bill- the Groups responsibility right now. Their responsibility is to make sure there's a proposal for next year with this area. And then he's saying its gotta be clear and concise. Here's the next issue now it comes here next year, as a proposal with an intent. Remember, the intent has to be clear. The intent is what the motion is about. I forgot I was going to bring a motion from our Group but I forgot to write it down. We wanted a proposal to put out that instead of January 1, it gotta be in by December 31 so we can have it in the magazine immediately in January and goes directly to the Group the magazine with the conference agenda in it, so every Group gets it okay. And the intent was to further our communication skills here, to make sure we get more Groups participating in that experience. The Group's responsibility is, and that's what brought it up, because the Group's responsibility is by January 1, we have a it's supposed to get back with the other Group, if they had any input on the proposal, right, become a motion. So you have that time from the time we put the conference report out here in September okay, what happened here? The proposals are put in there. You got from that point to get that input to the Group that proposed it. So if you have any input or changes to be made, they can make them changes immediately, and that there could pass a proposed a motion, then at that next conference.

Matte- also, that motion passed this year about taking those motions off. So do they just automatically come off now?

Bill- well, those two Groups have not been here and no one has picked them up right? In a number of years, I think those motions can be removed.

Matte- my other question was, was there anything in the bylaws that defined the actions that can be taken by the Anonymi Agent?

Bill- there's nothing in there that says that in the bylaws. That's gotta be established by the Groups, then you can make amendments to the bylaws.

Teresa- Is there a ruling document for the FSC? Or a decision making process?

Bill- We do have a decision making process that's been established. Okay, now we passed the motion. Now we need to document all that and bring forth every motion so everyone can view them, and they'll see our process and how we operate.

Erik- so we just talked about the motion passed that we take off the motions from the agenda that are not so it has a retroactive effect?

Bill- Yes because they've never been picked up.

Erik- if we move forward and so there, there's the Groups. One of the Groups needs to make a proposal for the legal entity?

Shawn- atleast one.

Bill- that comes from the report. Here's our report. Okay, the report gets sent out and you put it in. The conclusion of the report is, this is the information, basically, we were instructed to do. Now we need a proposal for a Group to get this approved, what we should take?

Matte- we got a little bit of time, but if we make it, we make plans to get together to work on this, because it's a very I mean, it's an important issue that needs to be it needs input from everybody, worldwide. I think there needs to be two proposals, because there needs to be one for the bylaws, and then there needs to be one for emergency actions by the Anonymi Agent.

Brian- that I heard about the this report that you're to offer up and and the last thing I heard, and I may not name and not what you said, but what I heard was, now it's up to the Group to bring forth a proposal. That's a paraphrase. That to me, would be a recommendation, and we don't make them. The report without any suggestions.

Bill- I didn't say a recommendation, first of all. Clarification that they are the ones that gotta put the proposal forward.

Brian- so you're not going to put "we need a proposal" in your report?

Bill- no we cannot take action until they put a proposal forward.

Brian- and we don't need to suggest to them anything.

Bill- no we're not. There is the ASAP, like we talked about and that deals with the immediate issues. I have to write a report from that. I gotta let them know we need because of the immediacy of what's going on in Nebraska, what's going on in Iran, I need them to have emergency Group consciences and get back to me to correct me that report. Yeah, that report, No, the other one just basically let them know we cannot take any action. Here's our report. It's up to the Groups to bring the proposal.

Brian- There that last sentence, right there can't go in that report because that's leading them to a proposal.

Bill- why are we sending it out then if we're not going to let them know we need a proposal?

Brian- it's up to the Groups to say "hey that sounds like we might need to make a proposal, let's write one."

Teresa- but could they just say, in order to take any action, this is what I would need to happen? It's still the same thing, but he's just saying I can't do anything. The only way I can do anything is if x, y and z, and then it's not direction. He's just saying I can't get here's what my options are on this legal end. I can't do any of them unless these things are done and I just leave it at that without, you know, I need that. It's just saying. I can't do it without it. That's just a fact. That's just a statement.

Matte- I don't see an issue with. I mean, because it's limited, and it's like that has been that way for for a reason, but if the if Groups are going to be protected, then they're gonna, there's gonna have to be something put in place.

Brian- but the Groups would have to come up with that. All this conversation is stemming from fear of what we see going on, we don't want to be that.

Matte- we could set the circumstances when the agent has the right to act and they would still have to report to the Groups like, what they're going to do?

Brian- I mean we are just using an abundance of caution.

Matte- no, it's good.

Erik- So I want to make sure that there's not more like Groups want to bring to the open forum...

Meeting closes with a prayer

Day 3- Sunday

Overview

The conference began with a moment of silence for the suffering addict. Financial updates included a starting balance of \$6,308, a \$500 down payment needed, and upcoming domain name renewals costing \$359 in 2027. Cleaning tasks were outlined, including sweeping and mopping. The website's slow loading was attributed to the current theme, and a question of changing it was discussed. Proposals included sharing PO box costs among Groups and approving new literature. The chair position was filled, and the need for a co-chair was emphasized. During elections we discussed the roles and responsibilities of various positions within the conference, including the four-year commitment of co-chairs due to becoming chairs. Matte will continue as secretary for another year, and Brian was praised for his efforts in setting up a Zoom platform for literature input. The need for Groups to host literature conferences was emphasized, and Brian was encouraged to step up as coordinator next year. The interim board, consisting of the chair, co-chair, and secretary, was retained. It was discussed that the conference needs direction from the Groups on creating a standing board. The importance of international representation on the board was highlighted.

The session opens with a moment of silence followed by the Serenity Prayer.

Announcements

Brian- Actually we have paid for this function. We're at \$247 and they want a down payment. This year went up to \$500 so we need \$253 and so we're going to make the fellowship great again by passing a hat and if you find it in your heart, give, give deeply, unless it takes away from that.

Changes: Meetinglist

This is the biggest change on our webpage.

We have been going through the Old Meetinglist, and put all the meetings on the new meetinglist that we were able to contact.

We would like to **delete** the "*Old Meetinglist Page*". We kept it online so far. Please consider inaccurate information on there, will lead people to go to a place where there is no meeting.

We believe we contacted all we could contact, and have an accurate meetinglist now.

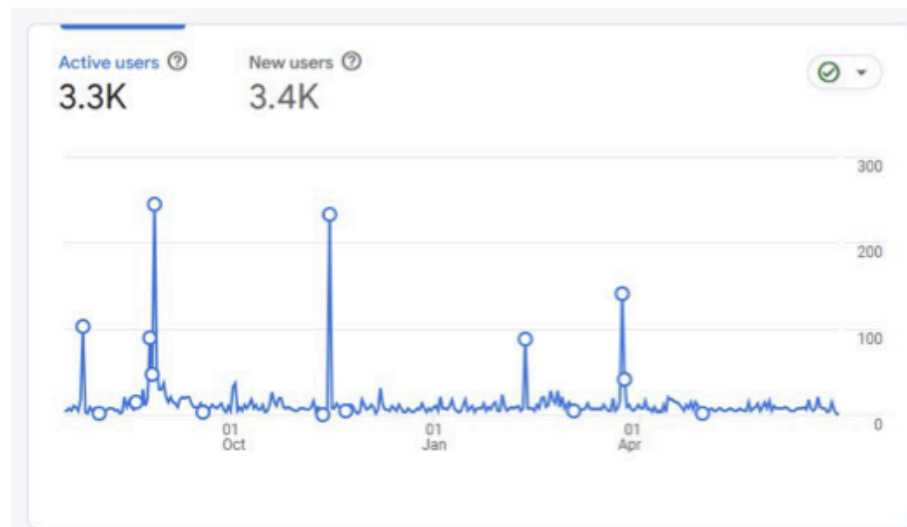

You have:

- 79 meetings
- 55 locations
- 28 groups

Questions for the Groups

1. The webpage is still very slow. And we don't know why. We think its because of the Theme we use, we could change that but it will change the look of the webpage. **Should we?**
2. **What is the purpose of the webpage, what do the Groups use it for or want to use it for?**

Option: Can we make 2 web pages with both their own purpose.

nahelp.org -> could be a PI Tool (meetinglist, focus on newcomers, events, information on NA, literature,) focussed on the primary purpose that the Groups use in their efforts.

Anonymifoundation.org -> could be more service based for the FSC, and Groups.

3.

Questions for the Groups

3. Can we have a member from the USA to take up the responsibility to update the webpage, check our email, and make sure questions end up at the right Group? What you need is to be able to work with WordPress, this is not too hard to learn if you are willing :) and i can help (Hermen).

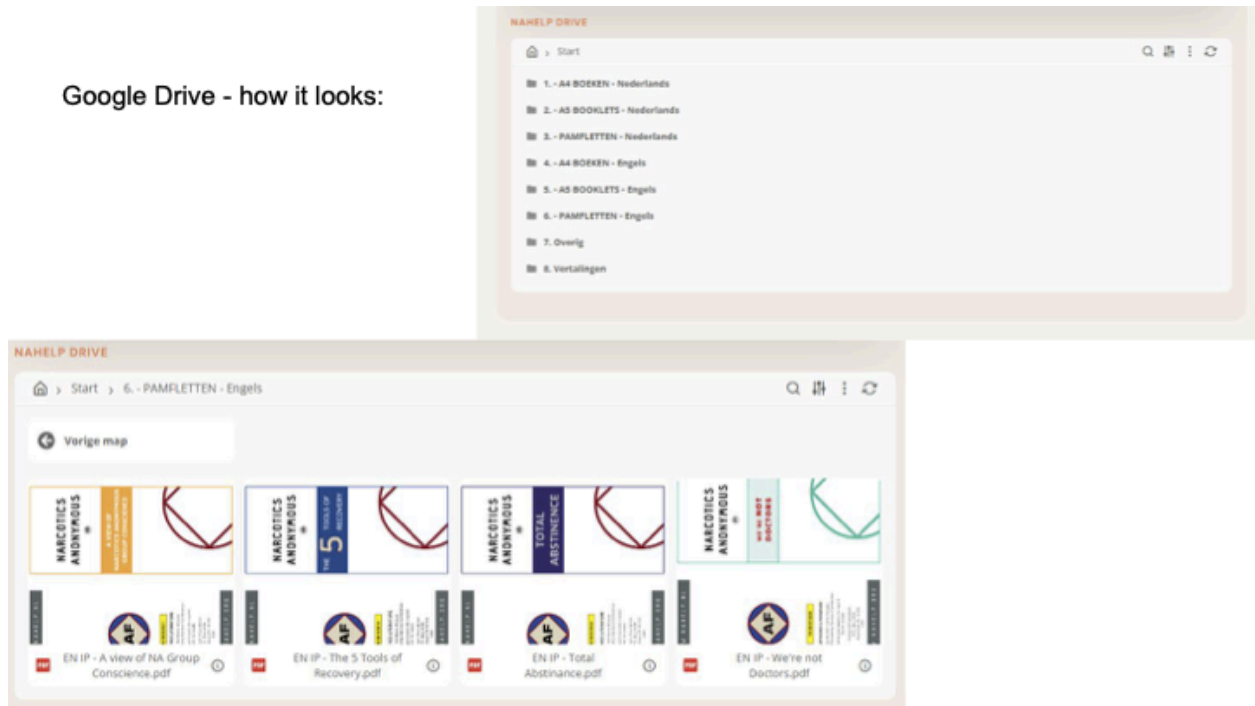

4. Can we buy the Google Drive plugin, so we can show files on the webpage, and make it easy accessible. We have been using this on www.nahelp.nl and it works great.

Here is information: [Link to webpage](#) it costs 39 dollars 1 time.

It allows people to go through all our files, open them, download them, etc.

Google Drive - how it looks:

The end

Some topics that were discussed about the Web Report

-Some discussion around whether or not we needed to ask living addicts their permission or not to be on the speaker tape Audio Playlist. It was basically established that we would ask living members for their permission before adding them from now on.

-Removing the old meeting list document but hanging onto it in case a Group contacts us and for Historical record. Also making a printable meeting list.

-There was some discussion about the webpage being slow and what to do about it. Previously the literature files and things were added to a google drive in an effort to speed things up. This made it so that when you click on files it takes you to google drive instead of opening it up directly. It was discussed that this was not ideal.

-It was also discussed to possibly try changing the theme to see if that would work but concerns were raised about changing the way the website looks. There was also discussion about the hosting and possibly changing to a different one in 2027 when the next payment is due. This would take a proposal from the Groups.

-Buying a google drive plugin for the webpage to show files it will take \$31.00 one time payment. An addict said that he would donate the money for the payment.

New Business

Proposals (Handed in at the beginning of Conference)

Historical Perspectives Group

1. Proposal for the FSC that the other Home Groups share in payment for the PO Box, for the Anonymi Foundation and the FSC

Intent: So one Group is not doing more than their fair share. All Groups should participate in paying for the service, for the FSC and the Anonymi Foundation that they created.

2. To approve the IP *Concerning Relapse*

Intent: This IP is on Groups literature tables. It has been through literature conferences, and we have not received any more input for this IP. So it's time for approval.

3. To approve *One Addict's Experience with Group Conscience through the Steps*

Intent: This booklet is being used throughout the fellowship to learn from one of our members of their accumulated understanding and experience. There has been no input for corrections on misspelling or run- on sentences. It is presented to approve this literature written by one of our members. It is consistent with our message and does not violate any Steps or Traditions.

It was discussed that the cost of the PO Box is roughly \$250.00 a year.

Elections

Shawn takes over as conference chair

Cherenty nominated by Tyrone for conference co-chair (everyone approves)

Matte remains secretary for one more year

Daniel remains co-secretary and will take over as secretary next year

Bill remains literature coordinator (wants Brian to take over next year)

Brian remains literature co-cordinator

Megan remains literature secretary

Kate remains literature co-secretary

- Discussions were had about the board for the Anonymi Foundation. It was established last year that last year's chair, co-chair and secretary would be the interim board. This will remain in place until we get direction from the Groups. It was expressed that it would be important to have an international member on the board.

Board is: Erik F, Shawn C, and Matte B

Hermen remains webmaster

Unofficial webteam is reaffirmed: Matte, Daniel, Tyrone, Josh

Conference ends with a prayer and group photo
